INAUGURAL ADDRESS

January 3, 1944

Gentlemen of the City Council:

Cherishing a fond hope that this world wide conflict will be over at least in part during the year 1944, we convene this morning to begin our service to the City in what might be a most eventful year. To you, the members of the City Council, and to each person in the City of Quincy and to those beloved ones of ours in the armed service in all parts of the world, I fondly wish a Happy and Safe New Year.

I would be unfair to my own personal convictions were I not to take this opportunity to express my gratitude to the members of the City Council for their splendid cooperation and excellent service to the city during this past year. The citizens of Quincy have every right to be justly proud of the members of the City Council. I congratulate those men who were returned to service by their constituents and I welcome to the City Council, our two new members.

Invaluable service has been rendered to the City by the members of the School Committee, the Hospital Board, the Library Board, the Planning Board, our Department Heads, and all others engaged in municipal activities during this past year. I am deeply grateful for their cooperation and the work which they have so successfully carried on. To all those men and women in the employ of the City who have remained in their positions, in spite of the lure of greater financial gain elsewhere, I extend my thanks. Without the loyal support of these capable citizens, it would have been impossible to render the municipal service to which the general public is entitled.

On behalf of the citizenry, I express gratitude to the members of the Civilian Defense groups for their keen interest, their alertness and their willingness to sacrifice that we all may be made safe and might make our substantial contribution to the war effort. It is gratifying for all of us to know that these men and women have made such a creditable record. May I respectfully suggest to those members of the civilian defense groups whose activities might be curtailed during the coming year, that they remain in close touch with their organizations, and hold themselves in readiness, as I know they will, for any emergency which might arise or for any assistance which they might render.

The people of Quincy have adjusted themselves with remarkable courage and fortitude to the sacrifices they have been called upon to make and to the tasks they have been designated to assume. Our people have cooperated to the fullest extent with the regulations of the Federal Government and have been fairly and justly treated by

our local Rationing Board whose work has been outstanding. Quincy is providing, through its factories and its shipyards, its mercantile establishments, substantial benefits to the war effort. Many thousands of Quincy men and women have donned the uniform of our country and are carrying its fame to all parts of the world. We can rejoice in this enviable record and we can rightfully take great satisfaction in the knowledge that Quincy's glorious tradition is being carried on.

We all appreciate the great trust and responsibility that has been placed upon us and we have all made a splendid effort to accept that trust and responsibility.

Upon entering the second year of my administration as Mayor, I look forward to continued success and continued cooperation. We are all cognizant of the problems which immediately confront us and are aware that we must anticipate changing conditions. No one can prophesy as to the future, nor can we foretell the economic or social changes that might soon be upon us.

During the year 1943, we were successful in affording to the people of Quincy a reduction of \$1.00 per thousand on the tax rate and this was accomplished while still maintaining the normal and necessary municipal services. We are confident that while the burden of federal taxation is increasing we will continue to maintain a lower tax burden by our actions, and if possible, it is my fond hope that a further reduction may be made during the coming year. We have anticipated and overcome increased cost of materials and increased charges due to governmental regulations which have been imposed upon us. We recognize that we must intelligently maintain our municipal services but that every saving possible will be made and with intelligent planning our present splendid financial condition will be improved.

I appreciate that we are confronted with the question of possible increased salaries to city employees. Until definite action is taken thereon, I am recommending to the Council, and am forwarding to you today an order covering this subject, that the \$5.00 a week bonus plan which was in effect during the year 1943, become immediately effective and remain in force and operation until superseded by any further action which might be taken.

The total debt of the City of Quincy on January 1, 1943 was \$3,731,000. To that sum, during the year, was added the sum of \$14,000 borrowed for the purchase of additional fire equipment. This loan order was one which was authorized during the year 1942 and part of the money borrowed at that time. Our total debt, therefore, for the year 1943, plus the \$14,000 borrowed, was a total of \$3,745,000. It is with pleasure that I can inform you that we have reduced that debt by \$685,000, leaving our present debt both inside and outside the debt limit, in the sum of \$3,060,000. On January 1, 1943 our outstanding tax title loans were in the amount of \$63,000 and of this sum we have retired during this past year, \$60,000, leaving a balance at present of but \$3,000. It is my intention, as it was my intention during the past year, not to borrow any money except for emergencies and I can assure you that there will be no major expenditures except only such as any emergency may create. I have, during the past year, and intend in the future, to place the City of Quincy in the best possible financial position so that we may meet any situation which might

arise and take advantage of a debt free community, should the future point in that direction.

I have given great and serious consideration to the question of the surplus in the Water Department. Most all of our citizens used a great deal more water during the past year due to their patriotic activity with victory gardens and in many instances, I know that by using excess water, their bills were higher. This problem will continue to receive my careful study, but at the present moment we have no definite knowledge as to the requirements of the Metropolitan Water System during these times of war, nor can we anticipate the need for these excess funds in any post war projects which may be undertaken. I deem it advisable, therefore, to make no move with reference to these funds at the present moment.

One of the great problems with which I was concerned, was the problem of the maintenance of public safety and public health. It is pleasant to be able to give assurance to the citizens of Quincy that, having been in continual contact with our hospital authorities and medical men, I am confident that our public health will always be safely maintained. Provisions have been made to meet any health emergency, proper plans have been formulated so that no member of the community will be without care, and we have made a determined effort to eliminate uncleanness and causes of disease throughout the city. Again I wish to commend the medical men and women of this City. We are most fortunate in having an excellent hospital and a group of outstanding people of the medical profession. In this connection we have taken advantage of sums allotted by the Federal Government by a public law approved June 15, 1943 and in conjunction with the U. S. Public Health Service of the Federal Security Agency, have established in Quincy, and made our proper contribution thereto, a unit of the U. S. Nurses Cadet Corps. This activity will be carried on in the coming years and will aid materially in the nursing problem.

I should like to direct the attention of the Council to an accomplishment achieved this year when our Zoning Ordinance was passed and went into effect. The Planning Board and City Engineer worked very hard perfecting the final draft of this ordinance which was presented to the Council and the members of the Council have in my opinion, adopted a very excellent ordinance. A Board of Appeal has been set up under this ordinance and it is functioning in a very capable manner. This forward step assures us of well regulated building and future development and will also contribute to health and sanitation.

Daily it is becoming more apparent that in addition to the war work in which we are all so actively engaged, we must take upon ourselves the great task of planning for the post war period. And not alone for the post war period but for the intervening period during which many of our men and women will be returning from the armed services. The Quincy Planning Board has met with me and we have laid out a creditable plan of post war projects to be pursued when and if the opportunity or necessity arises. In addition to these post war projects, so called, it is my intention, and plans are already under way in that direction, to mobilize, through proper agencies, all our industries, businesses and mercantile establishments, so that places may be found for men and women returning from the armed services, in jobs and positions to which

they are adapted both mentally and physically. It is my belief that all men and women must be afforded the opportunity to return to employment in those places in which their capabilities would naturally place them.

It is my intention also to make proper plans that a program of assistance, advice, medical attention and rehabilitation, might be afforded these loyal Americans. This, in all probability, will be done in cooperation with the Federal and State Governments and I anticipate, and will be on the alert, for further governmental provisions covering such program of which we might take advantage.

After careful consideration by a Council Committee and final adoption by the City Council, we have set up a proper agency for the handling of military and state aid to veterans and aid and assistance to be granted to veterans in every possible manner. This agency will help greatly in all problems which are now and will in the future concern the veterans, and will definitely take its place in the scheme of any of our post war activities.

The success which we are to achieve in the future is dependent entirely upon our desire and ability to work intelligently, harmoniously and for the best interests of our beloved city. We cannot afford to render to the public those services to which they are entitled other than by the concerted action of every public official who has been charged with a position of responsibility. I confidently expect, as do you, that every man and woman in the employ and service of the city will render their greatest service during the coming year. I wish now to unhesitatingly assure every department, board and employee of the City of my full cooperation and attention.

I pledge myself to work unceasingly and untiringly with you for our continued success and if we all work intelligently together, with the grace of Divine Assistance, we can successfully meet and solve every problem which might concern us during this coming year.

CITY GOVERNMENT—1944

Mayor, HON. CHARLES A. ROSS

REPORT OF THE AUDITOR

April 4, 1944.

*To His Honor the Mayor
and The Honorable City Council:*

I submit herewith the financial report of the City of Quincy for the year ending December 31, 1943.

In compliance with Section 50, Chapter 41 of the General Laws, there is appended a certificate under oath with reference to the verification of cash balances in the hands of the City Treasurer and various trustees having custody of funds.

Respectfully submitted,

LEO E. MULLIN,
Auditor of Accounts.

I hereby certify that I have verified, by actual count of the cash and verification of the bank balances, the cash of the City Treasurer, the Board of Managers of the Adams Temple and School Fund, the Board of Managers of the Woodward Fund and Property, and the Trustees of the Thomas Crane Public Library.

LEO E. MULLIN,
Auditor of Accounts.

Norfolk, ss.

April 5, 1944.

Subscribed and sworn to before me this day.

DONALD P. CRANE,
Notary Public.

IN COUNCIL

February 8, 1943.

Order No. 67

ORDERED:

That the several sums named herein be and are hereby appropriated for the payment of the expenses of the City of Quincy for the financial year beginning January 1, 1943 and ending December 31, 1943, to be expended by and under the direction of the several officers or boards as herein designated.

REPORT OF THE QUINCY RETIREMENT SYSTEM

February 28, 1944

HON. CHARLES A. ROSS, *Mayor,*
City of Quincy, Massachusetts.

The Quincy Retirement Board submits its ninth annual report, being for the year ended December 31, 1943, with appended tables setting forth the financial and statistical tables.

Membership during 1943 increased at a slower net rate because of the heavy turnover which has been experienced for the past two years. The average net rate of return earned on investments was 3.56%, showing an improvement over the preceding two years, thereby reducing the deficiency to be made up by the city toward the 4% rate credited on the funds held. Earned surplus was also increased \$1,739.00 based on book value, and would have been substantially greater, if calculated on market value.

Respectfully submitted,

GEORGE E. BONSALE,
JOHN J. KEEFE,
LEO E. MULLIN,
Quincy Retirement Board.

TABLE VI

**Valuation Balance Sheet Showing the Assets and Liabilities of
the Funds of the Quincy Retirement System as
of June 30, 1943**

Assets	
Annuity Savings Fund	\$138,685
Annuity Reserve Fund	6,185
Pension Reserve Fund
Pension Accumulation Fund	187,436
 Total Present Assets	 \$332,306
Present value of the prospective contributions payable by the City into the pension Accumulation Fund	279,295
 Total Assets	 \$611,601
Liabilities	
Present value of benefits on account of which contri- butions have been paid by members into the Annuity Savings Fund	\$138,685
Present value of benefits payable on account of bene- ficiaries or their dependents now drawing an- nuities from the Annuity Reserve Fund	6,192
Present value of benefits payable on account of bene- ficiaries or their dependents now drawing pen- sions from the Pension Reserve Fund
Present value of benefits payable on account of bene- ficiaries or their dependents now drawing pen- sions from the Pension Accumulation Fund	70,848
Present value of benefits to members with prior service credit to be paid by contributions of the City into the Pension Accumulation Fund	221,310
Present value of benefits to new entrants to be paid by contributions of the City into the Pension Accumulation Fund	174,566
 Total Liabilities	 \$611,601

No account is taken of the future contributions of members into the Annuity Savings Fund because the benefits provided by these contributions are exactly equal to the accumulated amount of the contributions and therefore they do not affect the balance in the fund.

REPORT OF THE BOARD OF ASSESSORS

January 1, 1944

HON. CHARLES A. ROSS, *Mayor,*
Quincy, Massachusetts.

Dear Sir:

The following is respectfully submitted as the report of the Assessing Department for the year 1943:

JOHN R. SHAUGHNESSY,
Collector of Taxes.

REPORT OF DEPARTMENT OF PURCHASE AND SUPPLY

To the HONORABLE CHARLES A. ROSS, *Mayor,*
City of Quincy, Massachusetts.

Dear Sir:

The annual report of the Purchasing Department is purposely arranged in condensed detail as descriptive tables, showing classified disbursements, department requisitions, total orders filled, contracts awarded, all totalling an expenditure of \$450,364.20.

Our office, in addition to the purchasing of necessities for our City departments, is used as a clearing house for distribution to departments of gasoline and fuel oil with all the exacting records regarding the administration of these rationed products; also custodian of the W. P. A. office equipment, records, etc., and in charge of property of our Civilian Defense Council.

An inventory of all City merchandise on hand as of January 1944, also the property of Civilian Defense Council and the W. P. A. is immediately available if you call for information.

Having completed my first year as purchasing agent I am fully cognizant of my responsibilities, however, I will always be receptive to and appreciative of suggestions for improvement in the general conduct of this department.

Trusting that the appended report is in sufficient order for approval, I am

Very truly yours,

ORRIE D. WILLIAMS,
Purchasing Agent.

Analysis of Purchase Orders

1943	No. of Orders	Total Amount	Quincy Orders	Am't of Quincy Orders	Boston Orders	Am't of Boston Orders	Outside Orders	Am't of Outside Orders

REPORT OF DEPARTMENT OF HEALTH

January 1, 1944.

HON. CHARLES A. ROSS, *Mayor of the City of Quincy*:

Dear Sir:

Attached herewith are the individual reports of those from whom we require an annual statement. While these show an unusually busy year, only a partial picture of the actual work done, and the accomplishments made, can be visualized from them. Because of extra requirements on the department, due to war activities and the large population movement which we are now experiencing, many unusual and extraordinary duties have been necessary. It has been necessary for practically all of those submitting the enclosed annual reports to assume some of this work, no mention of which is made in them. The office staff has taken on much extra work which is not revealed in any of these reports. I wish, therefore, to express my appreciation to the entire department for their ready acceptance of this extra work.

It should be remembered that for several years we have been operating with one less man, and one less nurse, than were available ten or twelve years ago. Meanwhile the routine work has multiplied, to say nothing of the extra load required under the present conditions.

Early in the year we learned that Federal authorities were planning a restaurant survey in three cities in Massachusetts, not including Quincy. As mentioned in previous reports of mine, we were far from satisfied with the conditions prevailing in our eating and drinking establishments. Consequently, to get actual facts and figures upon which to base a request for additional funds for control measures of these places, we requested that Quincy be included in this survey. This request was granted and the survey made. It entirely bore out our contention and very shortly I will make a supplementary request for an appropriation to enable us to establish and maintain the recommendations made in the survey report. The amount to be requested will not be large, but is vitally necessary and I feel that I will have the cooperation and endorsement of yourself and the City Council.

At the present time we are conducting lectures and classes for the owners and workers of eating and drinking places. The response and enthusiasm from them is excellent.

During the year it became necessary to leave Woodward School as a central clinic meeting place. Our requests for more available time was seriously affecting their school work; and the facilities available were fast becoming insufficient. We were offered the full time use of the former Boys' and Girls' Library Building on Spear Street by the Library authorities. With a very small expenditure for equipment and renovation we have occupied it. It has proven a very wise move. I thank the Library for their offer; and likewise wish to express my thanks to Miss Bacon, principal of

Woodward School, for her splendid cooperation in the past, together with an apology for the many inconveniences that we have caused her.

Due primarily to the present population movement, there has been a very marked increase in Diphtheria throughout the state. Fortunately we had no cases in Quincy during 1943. It is probably too much to expect that this record which we have enjoyed for so many years, will continue spotless much longer. This condition has obtained only through the great percentage of Quincy children that have been immunized against the disease in their early life. We intend to redouble our efforts in this program during 1944.

Following are vital statistics and other tables of interest. I suggest to our citizens a careful reading and analysis of them, as they contain many facts of constant improvement in the health of certain groups.

Population

It is admitted that our population has been considerably enlarged by the influx of workers on war materials, together with their families. The usual procedure in arriving at a population figure upon which to establish mortality or morbidity rates, is to add annually the average yearly growth during the ten years between the last two Federal census enumerations, which in this case was for the years between 1930 and 1940.

Obviously, our growth since 1940 has been greater than for the preceding ten years. It should be taken into consideration that we have nearly six thousand of our young men and women in the armed forces. Since they are away from home they do not have any influence on morbidity reports; and since deaths in the armed forces have not been reported to the City Clerk by Federal authorities, it is impracticable to include them in mortality figures.

In our opinion the number of persons to which ration books, still active, have been issued to, is probably the nearest to the actual figure that is obtainable. 76,834 such books were active on October 1st, and we are using this figure as a population count to base our rates for 1943. It should be borne in mind, however, that with nearly 6,000 in the services, we have actually a population of well over 82,000 people.

Deaths

Crude and Residential Death Rates. There were 805 deaths that occurred in Quincy in 1943, indicating a crude death rate of 11.6 per 1,000 population. Subtracting the 107 non-resident deaths, and adding 159 resident deaths that occurred outside of Quincy, we arrive at a figure of 857 residential deaths, or, a rate for 1943 of 11.2 per 1,000 population as compared with a death rate of 10.8 for 1942 and 9.8 in 1941. Table 4 gives the rates for the past ten years.

Sex and Nativity of Decedents. Of the above residential deaths, 471 or 55% were males, and 386 or 45% were females. 505, or 59% were native born, and 352, or 41% were foreign born. For age groups see Table 3.

Ten Principal Causes of Death

1943

Diseases	Deaths	Rate per 100,000	Pctg. of Total
Heart Diseases	309	402.2	36.1
Cancer	116	151.	13.5
Intracranial Lesions of Vascular Origin	80	104.1	9.3
Accidents	52	67.	6.1
Pneumonia (all forms)	50	65.1	5.8
Arterial Diseases	32	41.7	3.7
Diseases Peculiar to First Year of Life	31	40.3	3.6
Nephritis	30	39.	3.5
Tuberculosis (all forms)	30	39.	3.5
Cirrhosis of the Liver	15	19.5	1.8
All other causes	112	145.8	13.1
Totals	857	1,115.4	100.

In the above table Nephritis has dropped from 6th place in 1942 to 8th place in 1943; Arterial Diseases has risen from 9th place to 6th place; and Cirrhosis of the Liver has displaced Diabetes. Of the 80 deaths listed under Intracranial Lesions, 70 resulted from Cerebral Hemorrhage. Of the above ten principal causes, Accidents, Nephritis and Diseases peculiar to the first year of life, caused less deaths than in 1942; the balance of causes showed an increase. Table 1 shows the 1943 deaths in more detail.

Deaths from Reportable Diseases. There were no deaths from typhoid fever, infantile paralysis, diphtheria, measles, scarlet fever or whooping cough during the year 1943. Among the deaths in this group were, 30 from tuberculosis, all types, 18 from lobar pneumonia, and 3 from cerebrospinal (meningococcus) meningitis.

Infant Mortality. During 1943 there were 64 infant deaths, indicating the infant mortality rate as 35.3 per 1000 live births, as against 48 deaths in 1942, and a rate of 28.3 in that year. The 1942 rate was the lowest ever obtained in Quincy; however, the 1943 rate was better than any year previous to 1938. Of these 64 deaths, 44 or 69% were under 1 month of age. The leading cause of death was prematurity, claiming 24 or 37½% of the total infant mortality, and 55% of those deaths of less than 1 month of age. Table 2 classifies the infant deaths by age and cause; while the rates for the past ten years are included in Table 5.

Maternal Mortality. For the first year in the City's history there were no maternal deaths. Table 5 shows the rates for the past ten years.

Births

There was a total of 1,815 births credited to Quincy in 1943. There were 1,672 that actually occurred in the city. When we subtract 339 of these that were non-resident births, and add 482 resident births that occurred outside of Quincy, we get the above mentioned figure of 1,815 resident births. This gives us a birth rate of 23.6 per 1,000 population, the highest rate since 1920. These 1,815 births are the greatest number ever recorded in Quincy

for a calendar year; and the excess of births over deaths (958) is the greatest in our history. Only 22 of the total births occurred in homes; the balance occurring in hospitals. For birth rates since 1934 see Table 4.

Recommendations

Following up a recent letter to you, I urge the full cooperation with the state in mosquito control work within the city. Last summer, because of the prevalence of these pests it was unbearable to remain out of doors in the early morning or evening for either recreation, rest or work in gardens or around the homes. Aside from the possible sickness, in case some of these mosquitoes were of the anophales group, the proportionally small expenditure in ratio to the benefits derived make the effort a "must project." To get the best results this work should be started early in the spring.

Again, I urge that when any licenses are applied for to the License Commission for any business requiring equipment in accordance with State Health Laws, or the regulations of this department, that the Health Department be notified of the application in time to see that the full requirements are met before the license is issued. This would eliminate much extra effort on the part of our inspectors and eliminate court action.

Rabies in animals continue to occur in communities nearby. While we had no cases reported in 1943, the only insurance for safety of families and animals is the annual inoculation of dogs by their veterinarian.

In closing I must mention the splendid cooperation by the Quincy Patriot Ledger in affording us real publicity in all of our projects. Only by acceptance of the public can our various endeavors be successful; and newspaper assistance is a most valued asset.

Respectfully submitted,

RICHARD M. ASH, M.D.,
Health Commissioner.

TABLE 1

Resident Deaths According to Cause, 1943

Note—Infant death rates and stillbirths rates are per 1,000 live births.

Maternal death rates are per 1,000 total births.

REPORT OF DISPENSARY PHYSICIAN

January 1, 1944.

Like other problems war has interfered very much during the past year with the Tuberculosis problem. The State estimates an increase of 30 per cent in the death rate. New cases, are undoubtedly from two sources—the anxiety on the part of the patient to make more money through defense work and the non-realization of the tax and over-strain to his health by the defense work. We will have to hope for better success after the war.

Of course, the same problem indirectly affects our children's clinic. Here the children have extra money and spend it for pleasure and movies rather than for their health. Consequently, our educational propaganda which we were able to send into the home through the clinics will be diminished.

Some new sources of discovering Tuberculosis have been afforded through rejectees from military service. As you know the final status of these cases is determined by the county sanatoria—and thus we get our quota of new cases.

A resume of the costs of Tuberculosis in the early days and at present might be interesting. In 1908 the small sum of \$800 was expended for Tuberculosis. Today we spent from \$30,000 to \$35,000.

In 1904, the death rate was 208 per 100,000. Since then the death rate has gradually decreased to less than 100 in 1923. Another interesting thing in the fight in childhood Tuberculosis—Quincy has made a yearly appropriation of over \$2,000 and is probably the only city of its size in the state that appropriates so much money in this field of Tuberculosis. Many additions have been added in the fight in the so-called follow-up work. For the past two years we have added a full time social worker and rehabilitation worker. These agencies together with the field nurse—make the problem of the discovery of new cases much more thorough; and naturally decrease our general costs in overcoming the Tuberculosis problem.

I trust that we may take up the work after the war in the thorough way that we adopted in peace time.

I wish to thank you for your cooperation and the different nurses of the Health Department. Also Miss Russell who has done very well in coordinating all these different agencies for the general success in overcoming Tuberculosis. Also Mr. Ivan Poole, our efficient statistician, who has spent much time during the year for me in looking up health data.

Sincerely yours,

C. J. LYNCH, M.D.,
Dispensary Physician.

REPORT OF THE TUBERCULOSIS DISPENSARY NURSE

January 1, 1944.

I herewith submit to you my annual report for the year ending December 31, 1943.

Total number of all kinds of Tuberculosis in the city 450

Active pulmonary cases	107
Arrested pulmonary cases	286
Pneumothorax cases	15
Extra pulmonary cases	34
Quiescent pulmonary cases	8

New cases of Tuberculosis reported during the year 57

Pulmonary cases	51
Extra pulmonary cases	6
Diagnosis revoked during the year	2

Disposition of New Pulmonary Cases:

Admitted to Norfolk County Hospital	17
At home under own physician	6
Admitted to Rutland State Sanatorium	5
Admitted to Saranac Lake Sanatorium	1
Admitted to Tewksbury State Infirmary	1
Admitted to North Reading State Sanatorium	1
Admitted to Veterans' Sanatorium, Rutland	4
Admitted to Mattapan Sanatorium	1
Reported by death certificate	5
Working not having active disease	6
Moved away	4

Disposition of New Extra Pulmonary Cases:

Reported by death certificate	2
Admitted to Lakeville State Sanatorium	4

Norfolk County Hospital

Registration of patients at the end of the year	44
Cases admitted during the year	23
Cases readmitted during the year	9
Cases discharged during the year	38

Condition of patients on discharge:

Dead	13
Arrested pulmonary tuberculosis	14
Discharged "Improved"	4
One of the "improved cases" was transferred to another hospital for disciplinary reasons; Case not active but condition improved—discharged to report for check-ups every 2 months; left against advice (2)	
Discharged "Quiescent"—(1) against advice	4
Indefinite leave of absence to return to hospital for pneumothorax treatment	3

North Reading State Sanatorium

Registration of patients at the end of the year	2
Cases admitted during the year	1
Cases discharged during the year	1

Condition of patient on discharge:

“T.B. Pleurisy with Effusion”—Arrested

Lakeville State Sanatorium

Registration of patients at the end of the year	4
Cases admitted during the year	5
Cases discharged during the year	5

Condition of patients on discharge:

T.B. knee and Hilum T.B.—“Arrested”	1
T.B. Tenosy novitis	1
Discharged—“Non Tuberculous”	1
T.B. Cervical Adenitis Arrested	1
T.B. Nephritis right—T.B. Epididymitis left— Arrested	1
T.B. Epididymitis right—Quiescent	

Rutland State Sanatorium

Registration of patients at the end of the year	5
Cases admitted during the year	8
Cases discharged during the year	3

Condition of Patients on Discharge:

Dead	1
Lung Abscess “well”—non tuberculous.....	1
Left against advice—“Improved”	1

Tewksbury State Infirmary

Registration of patients at the end of the year	3
Cases admitted during the year	5
Cases discharged during the year	2

Condition of patients on discharge:

Dead	1
Left against advice “Unimproved”	1

Deaths

Total number of deaths reported during the year	30
Pulmonary Tuberculosis	27
Extra pulmonary cases	3

Dispensary Clinics—Adult

New patients examined	47
Old patients examined	141
Diagnosis of pulmonary tuberculosis made	8

Children's Clinic

New patients examined	63
Old patients examined	277

Sent to camps for 2-3 week periods	5
Referred for dentistry	14
Referred for T. & A. operation	6
X-rays taken on cases referred to Norfolk County Hospital through the clinics	297
Total number of visits to and in behalf of Tuberculosis patients	1,178

X-ray patients were transported to the Norfolk County Hospital Out-Patient Department every Tuesday A. M. and to Lakeville State Sanatorium Out-Patient Department three times during the year.

Transported four patients to and from Tewksbury State Infirmary.

Transported three patients to Rutland State Hospital.

Total Number of visits to communicable disease cases 297

Gave two lectures to the training school seniors at the Quincy City Hospital on Tuberculosis Work in Quincy at the request of Miss Potter.

Conducted a "Home Nursing Course" at the Cranch School every Monday afternoon for 12 weeks.

Am serving on the Procurement and Assignment Board for Nurses at the Quincy City Hospital.

Have also assisted at Well Baby Conferences when called upon.

Respectfully submitted,

GERTRUDE T. RUSSELL, R.N.,
Dispensary Nurse.

THE REPORT OF THE CHILD WELFARE PHYSICIAN

January 1, 1944.

The birth rate of Quincy still rises—23.6 for 1943 as compared to 21.9 for 1942.

The infant mortality was 35.3 (Quincy residents only) as compared to 28.3 for 1942. Dr. Leona Baumgartner of the New York City Health Department states that even in New York where medical and health standards are unusually high, there has been an unexplained lull in progress in combating infant deaths. Dr. Baumgartner also says, "It may be caused by the fact that a larger percentage of mothers are having their first babies and are inexperienced in their care." Family breakdowns she felt, has more to do with adverse conditions, since many young wives are carrying heavy war-time burdens, many are obliged to work and their babies may be suffering as a result.

Provisional figures reported by the U. S. Bureau of the Census for the first four months indicated a tentative rate of 54.8 deaths per 1,000 live births in New England, as compared with 46.5 in the same period of 1942.

Dr. Louis Dublin of the Metropolitan Life Insurance Company pointed to several possible reasons—"Overcrowding in our major industrial areas—The severe strain on hospital facilities for the care of mothers and newborn infants and the increasing shortage of doctors and nurses, all are contributing factors."

Commenting on congestion in maternity wards and hospital nurseries, Dr. Martha Eliot, Associate Chief of the U. S. Children's Bureau, has suggested opening convalescent homes near hospitals to which mothers and babies could be moved as soon as it was considered safe.

Approximately 69% of the infant deaths occurred under the age of 1 month. This is a decrease from the previous year. The percentage of hospital deliveries is slightly higher than in 1942 (98.8).

There were no deaths from Whooping Cough, Scarlet Fever, Diphtheria or Poliomyelitis. There were only 3 deaths among the total registration of 1,885 Clinic Children—but this group includes children to the end of the second year and also includes a small number of children registered in the pre-school clinic. Two of these deaths were T.B. Meningitis and one from a fractured skull.

The attendance at the Well Baby Conferences has dropped slightly—from 2,966 visits to 2,889 for 1943. The attendance at the pre-school clinic dropped from 88 to 49—largely due to the fact that no clinics were held during the first four months of the year (because Woodward Institute was closed).

The Atlantic Conference still remains the largest one—in fact, there was a slight increase.

Valiant work is being done by the Quincy Visiting Nurses. Working in cooperation with the Department of Health Nurses, the Visiting Nurses make certain that adequate care is provided to bridge the gap between hospital and home and to insure a good start in life for the infant.

Very truly yours,

E. B. FitzGerald, M. D.
Child Welfare Physician.

REPORT OF CHILD WELFARE NURSES

January 1, 1944.

Report of the Child Welfare Nurses for the year ending December 31, 1943.

Total clinic registration during year	1,885
Total clinic registration active December 31st	895
Total new registration during year	650
Total clinic attendance	2,889
Number of clinics held	223
Well baby clinics	206
Pre-school clinics	7
Orthopedic clinics	10
Number of deaths	3
T.B. Meningitis	2
Fractured skull	1

Clinics Held

Day	Station	Attendance	Examined	New Cases
Monday	South Quincy	386	370	84
Monday	Woodward (Pre-school)	49	49	11
Tuesday	Wollaston	464	430	103
Wednesday	Quincy Point	356	340	71
Thursday	Houghs Neck	275	265	56
Thursday	Woodward	546	520	151
Thursday	Woodward (Orthopedic)	54	54	21
Friday	Atlantic	759	740	153
		2,889	2,768	650

Due to the closing of Woodward Institute from January to April—no preschool clinics were held.

The Houghs Neck Clinic is held twice a month. Pre-school and Orthopedic clinics are held once a month, and all other clinics are held weekly.

Clinic Registration

Clinic	Active Dec. 31st	Inactive 1 year	Reg. in 1943

EVELYN R. KELLY, R.N.,
PHYLLIS OLSON, R.N.,
Child Welfare Nurses.

REPORT OF ORTHOPEDIC CLINIC FOR 1943

January 1, 1944.

Below is a report of the Orthopedic Clinic from January 1, 1943 to December 31, 1943:

Number of clinics held	10
Attendance	54
New cases	21

The following is a classification of conditions found in these patients:

Pronated feet	19
Flat feet and knock knees	7
Bow legs	4
Curvature spine	2
Flat feet	4
Hammer toes	1
Club feet	1

Respectfully submitted,

F. RAMON BURKE, M.D.,
Orthopedic Physician.

REPORT OF THE CHILD GUIDANCE CLINIC

January 31, 1944.

To the Health Commissioner, City of Quincy:

It is with pleasure that I present the seventeenth annual report of the Quincy Child Guidance Clinic for the year December 1, 1942 through November 30, 1943.

You will recall that our President, at the last White House Conference on Children in a Democracy, stated that all Americans want this country to be a place where children can live in safety and grow in understanding of the part they must play in our nation's future. If anywhere in our country, any child lacks the opportunity for home life, for health protection, for education, for moral or spiritual development, the strength of our nation and its ability to cherish and advance the principles of democracy are thereby weakened.

During the past year, the Quincy Child Guidance Clinic has brought service to 194 children of all economic levels, needing special assistance in dealing with problems of home, school or community adjustments. They ranged in age from one year through fourteen years. There was no single cause for any of their difficulties.

Many parents find it hard to understand how some children resist so well the unfavorable factors of their environment, such as the influence of bad companions, the temptations of unlocked automobiles, emotional tension from exciting or sensual books and movies, discontent and boredom with school, while others are such easy preys to these allures. It is only through study of the individual child that we can learn the reasons for these reactions and how they can be prevented.

A child has a mental life that is far more delicate and complex than his physical body, far more difficult to keep in order and much more easily disrupted in functioning. It is very unfortunate that many parents, who would insist on the best medical advice available when their child manifests the faintest symptoms of illness, overlook symptoms of serious personality difficulties in the form of bad habits and behavior problems that we know will influence keenly the future life of the child.

A large number of children studied were in the pre-school group, ranging from one to six years. Poor habits of eating, sleeping and elimination as well as thumb sucking, food dislikes, temper tantrums and jealousy were among the problems of chief concern to parents. In treatment of these difficulties, one of our greatest concerns was the particular needs of the parents, because younger children, far more than we may realize, sense the underlying thoughts and feelings of those they love best.

The greatest number of children studied were in the school-age group from six through twelve years of age. This was due partly to the fact that the Child Guidance Clinic works so closely in conjunction with the School Guidance Department and that this service is well understood by the school staff.

Our modern ideals of education demand that our schools give a child not only an academic education but also a training to fit him into society. We find that when personal needs and satisfactions must be adjusted to discipline and routines of social living, some friction frequently occurs. The fact that so many children of school age present problems for study certainly does not mean that the school is responsible. The problems presented are almost always indications of deep-seated difficulties having their roots in home or neighborhood situations. Every child has a life outside that life in school which, in turn, influences and is influenced by the school life. At any rate, he must be treated and guided on this

basis. In cases of difficult school maladjustment, the responsibility involved is one which a teacher cannot be expected to carry single handed and it is the function of the Clinic to treat such cases. The excellent cooperation of the schools with the Clinic facilitates and accelerates greatly the efficiency of treatment.

Previous to this year, therapy has been carried on for the older children, ranging in age from twelve years to middle adolescence by the Medfield Clinic. However, during the present emergency, it was felt advisable to discontinue this service and since that time children have been coming to the Quincy Child Guidance Clinic for treatment. This group is one of our chief concerns as these are the boys and girls on whom pressures of war conditions have fallen very heavily. This is a group which seeks more and more satisfaction and attraction outside of home, school and neighborhood for their leisure time. The tremendous increase in opportunities for part- or full-time employment has speeded the growing-up process of this group and made some of them, for the first time, almost entirely financially independent. To many of these boys and girls whose early years of childhood were spent in the dark days of the depression, this opportunity can be either a real advantage or a great detriment to their development of staunch citizenship. They are looking to the community for their satisfaction and pleasures, and they will take what it has to offer.

Play or recreation is a fundamental need of children and adults, and communities must assume responsibility for making these opportunities wholesome. The Clinic urges the further development and accessibility of the parks, athletic fields, playgrounds, swimming pools, skating rinks, community concerts, publicity of library services and strong support of our excellent group work organizations, such as the Young Men's Christian Association, Young Men's Hebrew Association, Boy Scouts, Girl Scouts, Campfire Girls, the Junior Police, and the excellent work carried on by Father Hart of the Blessed Sacrament Church.

The Child Guidance Clinic in its attempt to offer the best possible service to children and in its work with parents, agencies and other interested individuals has felt keenly the challenge of meeting the ever-increasing demands of the community for more and more service. To help meet the situation, the Director was well advised in providing another half-day session each week. Throughout most of the year, Thursday and Friday afternoons were devoted to this work.

On November 4, after several preliminary conferences with certain interested persons in the City, a meeting was held to organize a Child Guidance Clinic Association. The membership of the Association includes many outstanding people in the community who are actively interested in child welfare activities. The purpose of the Association is to act as an advisory committee to the Quincy Child Guidance Clinic and to help parents in a better understanding of the clinic service and functions.

During the latter part of the year, the Trustees of the Thomas Crane Public Library offered the former Children's Library as headquarters for the Clinic. The idea of having the Child Guidance Clinic in permanent headquarters is a step forward in providing better service to the citizens of Quincy. The Quincy Health Department which has cooperated closely with the Clinic at the same

time came forward and offered to redecorate, refurnish and maintain the building as soon as final details had been completed. It is planned to have the building open during the middle of December, and as soon as the opening date is set one full-day per week will be devoted by the Clinic Staff to child guidance work in Quincy.

The following is a statistical analysis of the clinic services from December 1, 1942 through November 30, 1943:

Total number of clinics held	87
Total number of cases carried	194
Total number of new cases	124
Total number of old cases	70
Total number of visits by children to clinic	1,081
Total number of interviews	3,024

Sources From Which Cases Were Referred

Schools	55
Family and Children's Agencies	10
Friends and Relatives	14
Physicians	29
Health Agencies	9
Others	7

124

I wish to express my appreciation to you, the Commissioner of Health of the Quincy Health Department, for your cooperation during the year, to the Superintendent of Schools, to the School Guidance Department, and to the Health and Social Agencies. I am grateful to the officers and members of the Child Guidance Clinic Association for the valuable advice and assistance given since the establishment of the Association. My sincere gratitude is extended to the members of the Clinic Staff for their unselfish and untiring service.

Sincerely yours,

EDGAR C. YERBURY, M.D.,
Director.

REPORT OF NURSES WORK IN PAROCHIAL SCHOOLS

January 1, 1944.

We hereby jointly submit a report of our combined activities in the Parochial Schools for the year ending December 31, 1943.

Number of visits to schools	126
Number of vision tests given	1,101
Number of pupils seen by nurse in office.....	721
Number of pupils referred to private M.D.	29
Number of pupils weighed and measured	886
Number of home visits	157
Number of health inspections	2,205

Respectfully submitted,

CATHERINE F. COLEMAN, R.N.,
EVELYN R. KELLY, R.N.,
PHYLLIS L. OLSON, R.N.

REPORT OF INFANTILE PARALYSIS CLINIC

January 1, 1944.

The following is a report on the activities during 1943 of the weekly Treatment Clinic for Infantile Paralysis cases held in Quincy:

Forty-three treatment clinics were held in 1943. There are forty-two active cases in the district, of whom thirty-one attended the Clinic. Six new cases were admitted in 1943. One case was operated upon at the Children's Hospital. Six hundred and fifty treatments were given during the year, and one hundred and thirty-three visits were made to the Central Clinic in Boston for consultation with the Clinic surgeons and for apparatus repairs and adjustments.

Very truly yours,

(Signed)
WILLIAM T. GREEN, M.D.,
Director of Clinics.

REPORT OF COMMUNICABLE DISEASE NURSE

January 1, 1944.

I herewith submit my annual report as Communicable Disease Nurse for the year ending December 31, 1943.

Three thousand, five hundred and twenty-three cases of notifiable diseases were reported as follows:

Anterior Poliomyelitis	5
Chickenpox	395
Dog Bite	149
Dysentery, Bacillary	1
Encephalitis	2
German Measles	1,147
Lobar Pneumonia	127
Measles	1,191
Meningitis Meningococcus	14
Meningitis, type undetermined	2
Mumps	167
Scarlet Fever	231
Suppurative Conjunctivitis	1
Trachoma	1
Typhoid Fever	1
Whooping Cough	89
Total number of visits	2,002
Anterior Poliomyelitis	16
Chickenpox	12
Dysentery, Bacillary	8
German Measles	12
Measles	1,037
Meningitis Memingococcus	12
Scarlet Fever	781

Suppurative Conjunctivitis	1
Typhoid Fever	2
Para Typhoid (old cases) cultures	12
Whooping Cough	80
Public Schools	15
V. Disease	4
Social Service Agencies	10

Anterior Poliomyelitis

5 cases reported this year. None reported in 1942.

Chickenpox

395 cases reported, an increase of 246 cases over the number reported in the previous year.

Diphtheria

This is the fourth consecutive year without a reported case of Diphtheria. As usual, immunization clinics were held during the year. 840 children were immunized; 330 by their family physician and 518 at the clinics. 803 of these children were in the pre-school age group.

Meningitis Meningococcus

14 cases were reported, an increase of 12 cases over last year's number.

Measles

1,191 cases were reported, a decided increase in numbers as compared with the 830 cases reported in the previous year.

German Measles also were very prevalent; 1,147 cases were reported.

Typhoid Fever

One case was reported and hospitalized.

Scarlet Fever

231 cases were reported, 133 cases more than reported in 1942. 28 cases were hospitalized at the John Haynes Memorial Hospital.

Whooping Cough

7 cases of the 89 cases reported were hospitalized.

Clinics attended	46
Venereal Disease	40
Baby	4
T. A. T.	1
Orthopedic	1

During the office hours held daily, over 1,200 children were inspected and given certificates to return to school. All the nurses in the department assisted at various times in this work.

2,002 calls were made in the follow-up work. This includes placarding of cases, re-visits, inspection of contacts for release from quarantine, issuing of school certificates, taking settlement histories, releases of patient from quarantine, investigation of complaints and school visits.

One afternoon in each school week was spent as school nurse in St. John's Parochial School.

Respectfully submitted,

CATHERINE F. COLEMAN, R.N.,
Communicable Disease Nurse.

DENTAL CLINIC REPORT

January 1, 1944.

The attendance at the Dental Clinic has been very good, which indicates that the parents are concerned and appreciative of this service.

The dental deficiency of American youth which was shown in the recent Selective Service data necessitates a greater need for dental care in the child. There is no doubt in my opinion, that if the men concerned had proper dental care during childhood, there would have been practically no draft rejections because of dental reasons.

At the clinic, of first importance is the condition of the first permanent molars; then the condition of the remaining teeth is considered, extracting only when absolutely necessary. Miss Dorothy Della Lucca, Dental Hygienist, talks to the children and parents on the importance of mouth hygiene. In the afternoon Miss Della Lucca does prophylactic work for the children.

I want to extend my thanks to you, as Health Commissioner, and also to the members of the Health Department, and to the School Nurses, for the cooperation I have received during the year.

Respectfully submitted,

LOUIS E. SULLIVAN, D.M.D.,
School Dental Clinician.

REPORT OF SCHOOL DENTAL CLINIC

January 1, 1944.

I herewith submit to you the report of the School Dental Clinic for the year ending December 31, 1943.

Number of children examined (Gr. I-III)	3,433
Number of dental clinics	186
Number of individual cases treated	475
Number of appointments given out	2,878
Number of appointments not kept	587
Number of emergency cases treated	40
Number of children attending clinics	2,331
Number of children refusing treatment.....	16
Number of cases completed	243
Number of permanent teeth filled	1,089
Number of temporary teeth filled	530
Total number of teeth filled	1,619

Number of permanent teeth extracted	130
Number of temporary teeth extracted	599
Total number of teeth extracted	729
Number of prophylaxis (Gr. I-III)	330
Number of prophylaxis (Gr. IV-VI)	671
Number of prophylaxis and examinations during summer (Gr. IV and upper grades)	175
Total number of prophylaxis	1,176
Number of cases dismissed, needing porcelain fillings.....	12

Respectfully submitted,

DOROTHY A. DELLA LUCCA,
Dental Assistant.

REPORT OF PRE-SCHOOL DENTAL CLINIC

January 1, 1944.

I herewith submit to you the report of the Pre-School Dental Clinic for the year ending December 31, 1943.

Total number of clinics	93
Total number of children attending clinics	570
Total number of individual cases treated.....	150
Total number of appointments not kept	182
Total number of children refusing treatment	7
Total number of teeth filled	368
Total number of teeth extracted	24
Total number of prophylaxis	80
Total number of treatments (drainage, grinding).....	80
Total number of cases referred for gas anesthesia	5

Respectfully submitted,

DOROTHY DELLA LUCCA
Dental Assistant

REPORT OF SANITARY MILK INSPECTOR

January 1, 1944.

I herewith submit my annual report for the year ending December 31, 1943.

The following statistics are for all milk, cream, ice cream, and all other dairy products, including butter and oleomargarine.

Dairies in the City of Quincy

1 dairy with 60 cows.	
1 dairy with 36 cows.	
1 dairy with 4 cows.	
Total number of quarts of milk produced daily by dairies in Quincy	1,300
Total number of cows (approx.) in nearby dairies supplying Quincy	1,000
Total number of quarts of milk (approx.) produced daily in nearby dairies for Quincy	10,000
Number of producers in New England Shed contributing to Quincy's supply.....	9,000
Milk contractors' processing plants, storage plants and creameries, distributing milk, cream and ice cream in Quincy	52
Vehicles used in the distribution of milk and ice cream in Quincy (All have been inspected frequently).....	200
Processing plants in Quincy—milk and ice cream.....	10
Total number of quarts of milk pasteurized in Quincy daily	55,000
Total number of quarts of milk consumed in Quincy daily; all pasteurized except certified raw	50,000
Total number of gallons of ice cream (pasteurized) manufactured in Quincy daily	600
Total number of gallons of ice cream (pasteurized) sold in Quincy daily	2,500
Total number of quarts of certified milk sold in Quincy daily, raw and pasteurized inclusive	135
Total number of G. A. milk sold in Quincy daily.....	1,500
Total number of quarts of cream, all grades, sold in Quincy daily	2,062
Total number of quarts of buttermilk sold in Quincy daily....	2,000
Retail licenses issued for sale of milk, ice cream and oleomargarine	693
Number of milk samples collected for bacteria and chemical analysis	1,532
Number of milk samples collected for phosphatase test.....	480
Number of milk samples below standard for fats and solids....	5
Number of milk samples in excess of legal standards.....	34
Number of vehicle inspections	777
Number of processing plant inspections	331
Number of inspections of milk and ice cream cabinets in stores	721
Number of dairy inspections	428
Number of dairy barn inspections	428

Due to the shortage of farm labor, and high wages in defense work, several of the local producers have discontinued entirely the production of milk and several more have curtailed their production. This condition has forced the dealers to expand into New York State for a supply. Some of these plants have never been inspected but will be this spring.

Due to the expansion of country territory, more country inspection is needed and I recommend that we do more.

Considering the obstacles that the dealers have had to overcome, the people of Quincy are very fortunate to have a good clean supply of milk, due to the vigilance of this department and co-operation of the dealers.

Respectfully submitted,
JOHN J. CURTIN,
Sanitary Milk Inspector

REPORT OF BACTERIOLOGIST

January 1, 1944.

Plate counts (milk)	784
Microscopic examinations (milk)	784
Chemical examinations (milk)	672
Total examinations	2240

EDWIN E. SMITH, M. D.

REPORT OF THE VENEREOLOGIST

January 1, 1944.

Male Clinic

Patients treated for syphilis	11
Patients treated for gonorrhoea	1
Patients lapsed treatment	2
Patients discharged	2
Patients moved away	2
Patients remaining under treatment	6
Total visits to clinic	182

Female Clinic

Visits by contacts	7
Treated for gonorrhoea	3
Treated for syphilis	9
Lapsed treatment	4
Discharged	1
Moved away	2
Remaining under treatment	5
Total visits to clinic	128

EDWIN E. SMITH, M. D.

REPORT OF INSPECTOR OF ANIMALS

Herewith is submitted my report as Inspector of Animals for the year ending 1943.

There were 247 animals quarantined under suspicion of having rabies. However, there were no positive cases.

Due to the gasoline shortage, I was directed by the Division of Livestock Disease Control to conduct no official inspection of livestock in 1943.

However, while engaged in the private practice of Veterinary Medicine, I had an opportunity to call on those who owned livestock. In my opinion, all livestock within the city limits are in good health and free from diseases contagious to man.

Very truly yours,

EDWARD A. deVARENNES, V. S.
Inspector of Animals.

REPORT OF INSPECTOR OF PLUMBING

January 1, 1944

I hereby submit my annual report as Inspector of Plumbing for the year 1943.

Applications filed1017
 Received for permits\$1335.50

The following is the number of applications filed and the amount received by months:

	Applications	Received for Permits
January	93	\$121.00

REPORT OF THE INSPECTOR OF MEATS AND PROVISIONS

January 1, 1944.

Following is the annual report of the Inspector of Meats and Provisions for the year ending December 31, 1943.

Regular inspections	2,969
Bakery trucks	192
Vegetable and produce trucks	117
Complaints	87

Condemned as unfit for human consumption:

Meat—all kinds	15,059 pounds
Fish—all kinds	4,025 pounds
Groceries and canned goods	1,629 pounds
Fruits and vegetables	777 bushels

Eating establishments in Quincy:

Restaurants	104
Drug stores	41
Lunch stands	10
Diners	8

Food stores:

Grocers, wholesale	2
Meat, wholesale	1
Meat markets	76
Variety stores	60
Fruit and vegetables	14
Bakeries	14
Fish markets	6
Candy manufacturers	3
Delicatessen stores	3
Bottling establishments	4
Liquor establishments (all kinds)	134

A total of more than 5,500 people, representing 35 various organizations, were shown sound pictures relating to public health during the year ending December 1943.

The U. S. Public Health Service conducted a survey of all eating and drinking establishments from October 22-27. Swabs of glasses, cups and spoons were taken in every store where these utensils were used.

Respectfully submitted,

CLARENCE L. EDWARDS,
Inspector of Meats and Provisions.

ANNUAL REPORT OF THE BOARD OF MANAGERS
OF THE QUINCY CITY HOSPITAL FOR
THE YEAR ENDING DEC. 31, 1943

To His Honor, the Mayor, and Members of the City Council:

Gentlemen:

The Board of Managers submits the following report for the year 1943.

The hospital has continued through 1943 the same record of success in serving the people of Quincy, as it achieved in previous years.

This result has been obtained under conditions which have become progressively more difficult, as the effects of our Nation's war effort have been felt to an ever increasing degree. Our staff of doctors has been depleted, the number of nurses reduced, and our maintenance and service departments severely handicapped by losses in personnel.

The rationing restrictions on food and equipment have challenged our ingenuity in maintaining accepted hospital standards.

In the face of these adverse conditions, it has been possible to carry on largely because of the loyalty of the hospital organization, its willingness and ability to assume extra burdens and its prompt and continued acceptance of the unusual obligations of hospital service.

Our finances, all things considered, have been quite satisfactory. While it has been necessary to again increase salaries substantially and to pay ever increasing prices for materials, it has been possible to complete the year without further appeal to you and with a small balance in our budget.

The physical condition of the property has been maintained at peace time levels, repairs being made when needed, and we feel that the end of 1943 finds the buildings, surgical and medical equipment, heating and laundry, and kitchen facilities at a very high degree of efficiency.

The completion of the new addition, was a source of great satisfaction to us, as it supplied extra facilities for the time when they would be needed. We consider this new unit to be one of the finest examples of this type of service in the country, and we are convinced that it will prove its value many times over in the near future.

During the year, after very careful consideration, the scope of our School of Nursing has been extended to include the new Cadet Nurses Corps, created by the Federal government, to increase the supply of nurses. This should relieve, to some extent, the present shortage of nurses, and will make available later, the large number of nurses which will be required for further war service; and when peace comes, to restore to good health those men and women who have been injured in the service of their country.

Plans for future development of our hospital should include a large permanent medical and surgical building, a modern surgery,

relocation of the heating and service building, improved elevator facilities which are at present inadequate, and improvements in parking space.

We wish to express to you and to the members of the City Council, our appreciation of your friendly cooperation, and enthusiastic support. It has always been evident that you intend that Quincy shall have a hospital that will rank with the best and one of which our people may well be proud.

Our thanks are due the doctors for their extra effort in carrying on the work of the hospital against great difficulties. This has been an outstanding example of the acceptance of the obligations of their profession, at great personal sacrifice.

We particularly express our thanks to the Superintendent, Dr. Joseph P. Leone, and his administrative organization for their fine work during this very difficult year.

Board of Managers,

MR. FRANKLIN S. NICHOLS, *Chairman,*
MRS. EDWINNA M. ROBB, *Secretary,*
MR. J. BROOKS KEYES,
MR. SAMUEL G. SLOANE,
MR. FRANK E. REMICK.

QUINCY CITY HOSPITAL STATISTICAL REPORT

REPORT OF THE SUPERINTENDENT

For the Year Ending December 31, 1943

To the Board of Managers of the Quincy City Hospital:

Mrs. Robb and Gentlemen:

Staff Goes To War

The month ending December 31st, 1943 brings to a close a year filled with difficulties and complications in the care of more patients with less of everything and a shortage of doctors and nurses. The war year of 1943 has proven that our hospital staff, with the help of volunteer workers and the American Red Cross, Quincy Chapter, is ready to meet any problem in our community in the care of the sick. In the presence of these difficulties, we have found our patients most co-operative and understanding of the many problems facing the hospital administration.

More than fifty per cent of our medical staff and nursing staff have gone to war. Those remaining at the hospital have graciously and generously accepted the additional burden placed on them as a result of a smaller staff and a larger patient census.

Volunteer Corps

It has often been said, "That the hospitals of our country would not remain open if it were not for the assistance of hospital volunteer workers." We agree with this statement. In behalf of the city and all the patients admitted to our care for this past year, we wish to express our thanks to our "volunteer corps," through Mrs. Wilfred Funnell, her assistants and all the Red Cross Nurses' Aides, for the thousands of hours of indispensable services. The Male Volunteer Corps, under the able direction of Mr. Prescott Low, his assistants and all men that gave so generously of their services, we extend our sincere appreciation. The Garden Clubs, under the direction of Mrs. Charles Sammond, Wollaston Garden Club; Mrs. Walter May, The Guild of St. Chrysostom's Church; Mrs. Welland Colburn, Women's Union Wollaston Baptist Church; Mrs. R. W. Wastecoat, Women's Union Wollaston Congregational Church; Mrs. John S. Rogers, Germantown Garden Club, who have also made a valuable contribution in the care of our patients. The Girl Scouts and the Campfire Girls also did their share of volunteer work in our hospital. Many other individuals, not members of any organized group, have also served patriotically on our staff.

The roster of the Quincy City Hospital Volunteer Corps for 1943 is as follows:

RED CROSS NURSES' AIDES

*Phyllis J. Abbott
*Helen P. Allan
Dolores K. Alvero
*Nancy F. Alvord
*Ella A. Anderson
*Mildred I. Anderson
Jane Barnes
*Annette Beaudoin

* Has received the Quincy City Hospital Volunteer Service pin, designating that more than 100 hours of free service were given to the hospital.

New Addition

During the summer of 1943, the new addition, accommodating fifty patients, was completed and furnished with the aid of Federal funds.

There have been occasions in the fall months of 1943 when the new ward could have been utilized. This was not possible, due to the shortage of nurses. The situation is the same at the beginning of the new year 1944. Sections of the new Ward-A are now being utilized by the Record Room, Male Volunteers, and "Health Clinic" for our Nursing Staff, under the auspices of the hospital physician, Dr. John MacLeod. The offices of Ward-A are also being used by the administrative staff of our School of Nursing.

Even though it is not possible to use the new ward now, we feel more secure in that should a catastrophe occur in our city, the new accommodations can be put to immediate use, with the aid of the emergency workers. The basement of the new building can be used to shelter some two-hundred patients, should that type of emergency ever occur in our city.

Events of 1943

The outstanding events in the administration of the hospital for the year 1943, in their order of occurrence, are:—

Completion of the new Formulary Room, Hunting-2.

Auxiliary help, provided by W.P.A., comes to an end.

Coal stokers ordered by the hospital.

Addition to Boiler Room, constructed to accommodate 150 tons of coal.

Highest census ever reached at Quincy City Hospital was 325 patients. This included 65 babies, on April 20th, 1943.

Day Nursery opened at the Sears Estate, for children of nurses and other employees at the hospital.

New addition "Ward A" completed.

Quincy City Hospital applies for the United States Public Health Student Nurse Cadet Training Program.

Ward A completed with furnishings, ready to operate.

Interne-training program reduced from twelve to nine months.

Addition to offices for School of Nursing.

Hospital Victory Garden at hospital yields: 40 bu. potatoes; 11 bu. beans; 3 bu. beets; 6 bu. Swiss chard; 4 bu. turnips; 25 bu. tomatoes; 7 bu. squash; 6 bu. (300 ears) corn; 3 bu. beet greens; 10 bu. carrots.

Increased Salaries

During the year, many salary adjustments for the entire hospital personnel were made. In the light of salaries paid in other City departments and in industry, it will be necessary to give further thought for additional increases to all hospital employees, in addition to the "special compensation" which is now being given and which will be automatically removed as soon as the war is over. The bonus given to all municipal employees was increased in 1943 from \$2.00 to \$5.00 per week. This was given by the Mayor and the City Council to offset, to some degree, the increased cost of living, due to war conditions.

Hospital Capacity Increased

With completion of Ward A, the capacity of our hospital has been increased by fifty beds. This can be increased to sixty beds with no difficulty. The official capacity of our hospital now stands 372 beds, including 60 bassinets.

Hospital Needs

For ten years now the Quincy City Hospital has grown in number of buildings and in bed capacity. The time is here that other facilities of the hospital must be considered. As a post-war program, your Superintendent, with the Medical Staff, makes the following recommendations for the future growth and improvement of our hospital, and in their order of importance:

- 1). Relocation and construction of new maintenance and power plant, preferably in the rear of M&S building, with entrance from Euclid Avenue.
- 2). Alterations to Hunting-3, thereby increasing bed capacity and other ward facilities by forty per cent.
- 3). Construction of an additional floor, with elevator service, to present surgical building—for central supply and sterilizing department, with corridor to Hunting building and to proposed four-story building.
- 4). Construction of a four-story building for—
 - a. Increasing and modernizing present Operating Room facilities (third floor).
 - b. Increasing and modernizing present Obstetrical and Nursery Departments (second floor).
 - c. Increasing dining room and kitchen facilities (fourth floor).
 - d. School of Nursing offices: Health Clinic for personnel; Social Service Department; Offices for Instructors; Waiting Room for doctors to see relatives, etc. (first floor).
 - e. Accommodations for Laundry; Rest Rooms for all employees; Accident Room with an Admitting Office. (ground floor).

Home for the Aged

The time is here when some action must be taken in our city for the care of the aged in our community. Medical progress has made great strides in prolonging the lives of men and women. At present, we find 25% of the hospital beds for the acutely ill patients occupied by the aged and the infirm. These patients, oftentimes, cannot be given adequate care in the homes. Convalescent homes are overcrowded, State Infirmaries are filled to capacity. The question is,—what are we going to do with our aged loved ones?

Either the Federal, State, or the Municipal Government should make immediate plans to meet this great social problem. The grounds now owned by the City for hospital purposes would easily allow the construction of a hospital for the aged. Cost of maintenance and supervision could be reduced to a minimum, under this arrangement. Authorities agree that the hospital, for the care of the acutely ill, is not a suitable environment for the care of the chronic patient.

Statistics

The following is a summary of the comparative statistics covering the years since 1934:

	1934	1935	1936	1937	1938	1939	1940	1941	1942	1943

† Includes Infant Days.

REPORT OF NURSING SERVICE—1942-1943

In a brief report comparative figures can serve as an effective means of indicating the changing situation in an organization during an expanding period.

DECEMBER 31, 1938		DECEMBER 31, 1943	
Daily average number of patients 183		Daily average number of patients 260.7	
Superintendent of Nurses ..	1	1
Asst. Supt. of Nurses	1	1
Ward Instructors and			
Day Supervisor	1	2
Instructors	2	2
Asst. Instructors	0	2
Night Supervisors	2	3
Supervisors Special Depts.	2	1½
Head Nurses and Assistants	14	16
Graduate Staff Nurses	74	43
(Full time)			
Graduate Staff Nurses	0	17
(Part time)			
Student Nurses			
Senior Students	14	34
Intermediate Students	16	41
Junior Students	20	40
Total	50	Total	115
Less students absent at			
affiliation, ill, vacation,			
or other causes	15	46
On duty in home school	35	69

The nursing service has been carried on during the past year, with a depleted and inadequate staff of experienced, permanent nurses. Without the help which we received from the group of graduate nurses who have worked a few hours a day, the Volunteer Red Cross Aides, and the Male Volunteers, we would have been unable to function.

In July, the School of Nursing was approved by the United States Public Health Service, whereby applicants to the school are eligible to apply for an "all-expense scholarship" and become members of the United States Cadet Nurse Corps. Enrolled students were permitted to make application for membership, and the majority of students in the school are now members of the Cadet Corps.

The accelerated program has necessitated a good many adjustments in the affiliating courses, as well as in the home school.

A class of 32 young women were granted the diploma of the school at the formal graduation exercises on June 24, 1943. It was the largest graduating class in the history of the school. Miss Sophie C. Nelson, R.N., Vice-Chairman, National Nursing Council for War Service, gave the address. Four members from this class are already serving with the military forces outside the United States.

In response to the request of the United States Public Health Service, every effort has been made to enroll a maximum number of qualified applicants. Housing accommodations limit the number of students we are able to admit to the school twice each year. In January, 1943, there were 19 students admitted, and in August, 1943, there were 27 students. Twenty-six applications have been accepted for the class entering January, 1944.

We acknowledge with gratitude, the services of all those loyal members of the staff, who have carried on to the best of their ability during these trying times. Graduate nurses, students, and volunteers, have demonstrated that they too can be good soldiers, albeit they are stationed on the home front.

REPORT OF THE SOCIAL SERVICE DEPARTMENT

The following is a brief report of the work of the Social Service Department for the year 1943. Although there has been a decrease of seventeen per cent in the number of cases investigated, we find that our ingenuity and knowledge of community resources are being taxed to even greater extent in trying to solve the types of problems now confronting us. Financial dependence is no longer the chief source of trouble in which people ask our help, and chronic and convalescent care, especially for the aged and infirm, homes for unwanted babies, and health service of all types to servicemen's dependents are now our main concern.

I.

Case Load

Total cases investigated	1,408
Service patients	1,162
Accident cases	143
Old accounts	103
Financial arrangements made on service cases:	
Free	88
Part-pay	52
Referred to Welfare or Health Departments	105
Pay	725
Welfare patients	58
Old Age Assistance patients	95
Aid to Dependent Children patients	39
Number of outside calls made.....	497
Referrals:	
To other clinics and hospitals	20
To City Home	6
To Visiting Nurse Association	-
Home Nursing	8
Nutritionist	2
To convalescent homes	34
To Red Cross	
Home Service	4
Motor Corps	8
To other social agencies	25
For surgical appliances	3
To boarding homes	4
Prenatal Clinic:	
Total number of patients	68
Total number of visits	260

II.

Social Service Committee

Because of wartime restrictions in social functions, the Social Service Committee did not hold its Annual Ball in 1943. In its stead, a bridge party was given in the new building, Ward A, on June 21, 1943. The public responded generously, and many people came to the bridge in order to see the new building, and the Committee realized a net profit of \$274.73.

This year the Committee gave the hospital three humidifiers for use in treating respiratory diseases on the Children's Ward, and it also bought a stove for the day nursery in the Sears' building.

III.

The way in which the Social Service Department can best serve the individual patient, especially those with social problems which affect their medical needs, is thorough co-ordination of all the departments in the hospital into a single-working unit.

Appreciation

To Mayor Charles A. Ross, the City Council, to all City department heads and their staffs, we extend our sincere thanks and appreciation for the help given the hospital on every occasion when called upon by your Superintendent.

For the patients and the hospital personnel, we extend our appreciation to our many friends, the Needlework Guild, all civic clubs, the various garden clubs, and other organizations for their kind generosity in sending magazines, clothing, toys, scrapbooks, and flowers to the hospital.

To the Quincy Patriot Ledger and its staff, we wish to say, "thank you" for their sustaining co-operation and continued help in bringing to the citizens of our community the story of the work at the Quincy City Hospital.

The work of 1943 could not have been accomplished without a staff of co-operative and faithful assistants and employees. To all of these I wish to say that I am grateful for their assistance, and I ask for their continued co-operation for the coming year.

For the many hours of free and valuable service given to the patients admitted to our hospital, I wish to extend, for the grateful patients and for the administration, our sincere thanks to all the doctors that have made this possible.

It is a privilege, at this time, to express my appreciation to the Board of Managers for their continued co-operation and advice during this most difficult period.

Respectfully submitted,

JOSEPH P. LEONE, M.D.,
Superintendent.

REPORT OF THE PUBLIC WELFARE DEPARTMENT

HON. CHARLES A. ROSS, *Mayor of the City of Quincy:*

The Department of Public Welfare respectfully submits the following report for the year ending December 31, 1943:
General Relief

Conditions brought about by the War have somewhat changed the nature of our General Relief work. Our average case load has remained about the same throughout the year, but unemployment has practically disappeared as a reason for dependency. Illness and families disrupted by domestic troubles are now the principal causes for the granting of assistance in our General Relief division. Our staff has been further reduced by the transfer of a military substitute Social Worker to our Old Age Assistance division.

Including both General Relief and Hospital Aid, we received 93 notices from the State and other cities and towns, of which we acknowledged responsibility for 45 and denied 48. We sent 248 legal notices to the State and other cities and towns to hold them responsible for their aid or hospitalization rendered here, of which 227 were acknowledged and 21 denied. Much work was done on automobile accident and workmen's compensation cases with a view to seeing that the hospital bills were paid out of any insurance settlements. The War brought on much more work in handling servicemen's cases. Dependents of these men had to be provided for until the family started to receive the man's allotment. We had to assume responsibility until arrangements were made to have some other department or organization take the case over. We also had many cases of dependents of servicemen referred to us on hospitalization.

The Federal Stamp Plan that was operating in the city for several years went out of existence on February 28, 1943. This plan assisted welfare recipients and low income groups with additional purchasing power for vegetables and fruits. The amount of stamps issued since January 1st was valued at \$5,814.00.

On March 1, 1943 a new plan was started known as the Milk Stamp Plan permitting the same group to purchase milk—the allowance according to size of family at six cents per quart. This program was also abolished June 30, 1943, the amount of stamps sold being \$253.50.

We have continued to use one truck in the work of our department. During the year we have used it 86 days for the pick-up and delivery of wood; 72 days or parts thereof in picking up Surplus Commodities from warehouses and freight depots and delivering same to needy persons and institutions in our city. Our chauffeur also made 102 pick-ups and deliveries of furniture which includes moving of needy families, and transported 34 patients to and from hospitals and other institutions. We have been able to assist the Red Cross and other social agencies from time to time in their transportation problems.

W. P. A.

The W. P. A. program closed down completely in June of 1943 but fortunately most all of these people were absorbed in private employment or war work.

Coal

It became apparent in the Fall of the year that an emergency would be likely to arise out of the shortage of anthracite coal. As a result a committee was created by Mayor Ross to make plans to cope with any situation that might arise and thereby prevent suffering. It was decided by this committee to set up an Emergency Coal Bank at the Public Welfare Department so that Quincy citizens might purchase emergency supplies. Mr. Venna was to distribute this coal in 100 or 200 pound lots after investigation by his department of the need of applicants and taking steps to obtain early delivery of the coal by the coal companies in the regular course of business. Up to the date of this report 73 families had been aided over in emergencies, but from all indications, this problem will increase sharply before the end of Winter.

Selective Service

We have continued to furnish our three local Selective Service Boards with written reports of investigations made by us when so requested on prospective inductees. These requests have usually followed claims of unusual hardship made to the said Boards, and we trust that our reports have proved helpful.

Clinic and Dispensary

Our clinic operates one day weekly and our pharmacy distributes to General Relief cases only—the Federal Government forbidding Old Age Assistance and Aid to Dependent Children cases the use of the pharmacy. The clinic is under the supervision of our City Physician, Dr. MacLeod; and Mr. Walsh, Superintendent of the City Home, continues as our pharmacist.

City Home

Our City Infirmary has in the past been assisted in man hours of labor by general outside welfare help in the upkeep of the property, the maintenance of wood, supplies, and the care of the garden, but the inmates responded well to their war responsibilities. The garden has been wonderfully productive the past season. In addition to all fresh vegetables in season, we have been able to stock enough for the winter. The Infirmary is in need of several major repairs including the fire alarm system which should be completed, and the house needs painting and some repair work.

Old Age Assistance

During 1943 the Old Age case load has been reduced from 977 to 870 as of January 1, 1944. There has been a continued reduction during the last few years because of good employment and high wages in the community. Another reason is that new legislation in Massachusetts on Old Age Assistance became effective on September 8, 1943 which requires more adequate, more uniform, more equitable standards in determining need and establishing the amounts of assistance to be paid. It also places on the children a responsibility for the full or partial contribution towards the sup-

port of their parents. The amount of their responsibility is based on the amount of income they receive, consideration being given to the war-time cost of living and heavy taxes. Old Age Assistance is granted on a budgetary system, which is changed periodically by the State Department of Public Welfare to meet new legislation and economic conditions. On July 7, 1943 our City Council approved and appropriated sufficient funds to increase the personnel with two social workers and one clerk. This was done to make an adequate number of workers. At the recommendation of the State Department of Public Welfare, Chapter 22 of the City ordinance was revised. After consultation with our City Physician minor changes were also made in Chapter 23.

Aid to Dependent Children

In the Aid to Dependent Children division during 1943 the case load dropped from 110 to 92, a net decrease of 18 cases. This was due to the increased opportunities for employment of the older children in these families at higher wages. The mandatory State budget was revised twice during the year in accordance with the increase in the cost of living. Because of this, the cost per case rose sharply, and it is expected that this upward trend will continue in 1944. A few military cases were aided early in the year, but later on the Red Cross decided to aid this type of case until war allowances were received, and for the past several months, these military cases have been referred to the Red Cross, thus relieving the division of this responsibility.

We again wish to express our appreciation of the continued cooperation manifested during the past year by the various departments and organizations throughout the community.

For details of expenditures, reference is made to report of the Auditor of Accounts.

Respectfully submitted,

ANTHONY J. VENNA,
Welfare Agent.

---------------------------------	-----

Death entered the ranks during the year in the loss of Special Officer Ernest W. Hodge, attached to the Detective Bureau for a long period of time. He was outstanding as a Detective and had many aptitudes. His ability was not only recognized in this Department, but by all enforcement agencies with which he had contact.

Hours of duty meant nothing to this officer, who considered his duty more important than the hours scheduled for him in the Inspector's office. To the members of his family, I extend the sympathy of the Department, which has felt a great loss in his death.

On July 2nd, 1943, Lieut. William F. McIntyre was appointed to the rank of Captain. On the same date Sergt. Joseph P. Flaherty was appointed to Lieutenant and Patrolman Joseph C. Pangraze was appointed to Sergeant.

Morgan J. O'Regan and Ralph T. Moreau were appointed as regular Patrolmen on February 1st, 1943; Warren J. Corbett on June 24, 1943; Charles R. Griffin on July 2nd, 1943; Frederick J. DeCoste on September 9th, 1943, and Henry F. Bilodeau on December 6th, 1943.

The following named officers were appointed as Reserve Officers: Louis P. Tupper and Randolph H. Haslett on February 9th, 1943; Paul A. Lahive on June 24th, 1943; William T. Spencer and Arthur J. Duffy on September 14, 1943. Guido R. DiBona was re-appointed as a Reserve Officer on September 7th, 1943.

Patrolman Joseph L. Paradise was pensioned on February 1st, 1943; James O'Connell on July 27th, 1943 and John J. Flaherty on October 7th, 1943.

I recommend that 12 men be added to the Department by reason of the increased amount of traffic due to the Fore River Shipbuilding Company war contracts, as well as the shipyard at Hingham which calls for extra officers on traffic duty, both on cycle and on foot. To persons not familiar with Police Department duties, there is little chance for them to pass fair judgment as to the justification of our claim for additional officers. I can only urge the necessity of the men, believing that the last half detail should be of the same numerical strength as the first half.

I believe that the life of any automobile in the Police Department used continually as Radio Cars is one year and recommend the replacement of eight autos used in that line of work.

Owing to the war-time regulations concerning sailboats and other small crafts which necessitated all boats to be anchored at sun-down, there were very few owners that took advantage of

using these boats for pleasure, by being employed seven days a week in local shipyards, which curbed the activities of the Police Boat to a minimum. The boat was commissioned from June 1st to December 1st, and during Sundays and other times when called on cases of drownings, went to the scene and rendered valuable service.

To Captain Ferrazzi, Director, and Assistant Directors Henry F. Nilsen and Aaron Hobart, Jr., officers and members of the Auxiliary Police, I extend my thanks for the whole-hearted support rendered the City during the Air Raids and Black-out tests.

Such willingness upon their part shows to the citizens of our City that men of their type and caliber can be depended upon if ever the City were in danger of invasion by the enemy from the air, water or land. My profound thanks is extended to every member of the Auxiliary Police who have rendered valuable assistance to the regular Police Department.

In conclusion, I wish to thank Mayor Ross, the City Council, the heads of the various City Departments for their assistance given me. I am also grateful to the District Attorney and the members of his staff, to the Justices of the Courts, the Probation Officer and members of his staff, to the Clerk of the Court and his office staff for their consideration and advice.

To all members of the Department who have worked to reach and maintain a high standard of efficiency, I am sincerely thankful and assure my appreciation that our best efforts to merit their confidence in the future will be given.

Respectfully submitted,

JOHN J. AVERY,
Chief of Police

REPORT OF FIRE DEPARTMENT

January 20, 1944.

HON. CHARLES A. ROSS, *Mayor*,
City Hall,
Quincy, Massachusetts.

Dear Sir:

I respectfully submit the report of the Quincy Fire Department for the year ending December 31, 1943.

The report contains the personnel, apparatus, list of alarms, the value of property at risk, the insurance carried, the insurance paid on fire losses, as near as possible, recommendations for the ensuing year and other pertinent information that may be of interest.

Personnel

The personnel of the department consists of 135 men who rank as follows: Chief of Department, three Deputy Chiefs, twelve Captains, eleven Lieutenants, a Mechanic and 107 Privates.

Location of Personnel

Station	Officers	Privates
Headquarters		
Chief		
Deputy Chief	3	2
Chief's Aide		2
Deputy Chief's Aide		2
Hose 1	2 Captains	10

Fire Prevention Bureau Report

Total inspections made for year	12,905
Total permits issued for all purposes	1,559

After years of faithful and excellent service to the Department and to the City, the following members of the Department were retired on a half pay pension:

Captain Edward O'Neil, retired October 23, 1943

Privates Edward Hanrahan and Arthur McNulty, retired

April 3, 1943

Private Fred Rouillard, retired September 18, 1943

Private Albert Shay, retired December 25, 1943

The following promotions were made to the permanent Department:

To Captain: John E. Byron and Thomas Murphy

To Lieutenant: John W. Tobin, Thomas Cotter and

Arthur Hayford

On June 17, 1943 the new Squantum Station was dedicated and placed in service. A new Captain and new Lieutenant and six additional men were appointed to man the apparatus.

On October 13, 1943, 2 new 1,000 gallon LaFrance Pumping Engines were placed in service to replace Engines 1 and 4, located in Headquarters and Wollaston. Both the old pieces were more than 19 years old.

Value, Insurance and Losses

Value of property involved	\$1,632,179.00
Insurance on same	1,487,440.00
Loss, insured and uninsured	254,153.30
Insurance loss	214,119.47

Total fire loss for 1942	\$148,592.37
Total fire loss for 1943	254,153.30

Increase in fire loss	\$105,560.93
-----------------------------	--------------

One fire on March 23rd increased the loss \$100,000, otherwise the fire loss for the year would have remained nearly the same as that of 1942.

Recommendations

1. That a new station be erected at Houghs Neck to replace the present frame structure.

2. That a 1,000 gallon pumper be purchased to replace Engine 2, which is more than 17 years old. This replacement would, with one exception, leave our apparatus less than 10 years old.

3. That 8 new men be added to the Department to replace the men assigned as Fire Alarm Operators and to place Ladder 3 back in service and thus give increased fire protection to the West Quincy section of the city.

In conclusion, I wish to express my sincere thanks to His Honor, the Mayor, the City Council, the various City Departments and to the officers and members of the Department for their cooperation in maintaining our Department in its present high state of efficiency.

Respectfully submitted,

WILLIAM J. SANDS,
Chief of Fire Department.

FIRE AND POLICE SIGNAL DEPARTMENT REPORT

January 1, 1944

HONORABLE CHARLES A. ROSS
Mayor, City of Quincy
Quincy, Massachusetts

My Dear Mayor:

I respectfully submit the annual report of the Fire and Police Signal Department for the year ending December 31, 1943.

All Fire Alarm, Police Signal, Traffic Signal and Air Raid Communications were efficiently operated and serviced during the past twelve months.

Numerous additions and alterations were completed to all services maintained by this department.

During the coming year all efforts of the members of this department will be devoted to maintaining services with a minimum use of any material vital to war service.

Very truly yours

THOMAS J. SMITH,
Superintendent.

REPORT OF INSPECTOR OF BUILDINGS

January 3, 1944

HONORABLE CHARLES A. ROSS
Mayor, City of Quincy
Quincy, Massachusetts

I herewith submit the thirty-seventh annual report of the Building Department for the year ending December 31, 1943.

WARD TABULATION OF BUILDING OPERATIONS

Ward Permits		Estimated Cost
1	302	\$100,630.00
2	209	353,890.00
3	132	60,716.00
4	86	21,119.00
5	226	184,800.00
6	175	100,114.00
<hr/> 1,130		<hr/> \$821,269.00

Permits Issued

Permits	Estimated Cost
39 One Family Dwellings	\$152,100.00
2 Cottages	1,280.00
3 Manufacturing	27,200.00
63 Storage	38,540.00
24 Garages	3,910.00
857 Res. Alterations	248,015.00
115 Non-Res. Alterations	240,996.00
9 Removals	380.00
18 Miscellaneous	108,848.00
<hr/> 1,130	<hr/> \$821,269.00

Statement

Cash received each month for permits issued from January 1, 1943 to December 31, 1943 and paid to the City Treasurer is as follows:

January	\$33.50
February	46.50
March	127.50
April	178.50
May	149.00
June	132.00
July	146.00
August	99.00
September	121.00
October	213.50
November	90.00
December	107.15
	<hr/> \$1,443.65

There were 50 family units provided for the year nineteen hundred and forty-three, 39 through new construction and 11 through alterations.

The decided decrease in new construction in nineteen hundred and forty-three was due to the fact that the War Production Board made limitations governing the use of building materials.

The Zoning Ordinance was enacted on July 1, 1943, and the enforcement of it became the duty of the Building Department.

Hearings were held on two applications by the Zoning Board of Appeals, one was granted and one rejected.

The Board of Appeals for the Building Code acted on ten applications, seven were granted and three rejected.

During the month of April all fire appliances were tested as required in Section 48, Chapter 143 of the General Laws.

Respectfully submitted,

ALRICK A. WEIDMAN

Inspector of Buildings.

REPORT OF INSPECTOR OF WIRES

January 3, 1944

HONORABLE CHARLES A. ROSS
Mayor of Quincy,
Quincy, Massachusetts

Dear Sir:

I respectfully submit my annual report as Inspector of Wires for the year ending December 31, 1943.

Inspection in Buildings

The following specified schedule of electrical inspections made of lights and other appliances installed.

Signs, permanent wiring	17
Heat regulators, permanent wiring	65
Coal stokers, permanent wiring	32

New Wiring in Old Buildings

1 family houses	3
Mercantile	3
Garages	2
Total	8

New Wiring in New Buildings

1 family houses	93
2 family houses	9
4 family houses	4
Mercantile	6
Manufacturing	8
Garages	10
Miscellaneous	67
Total	197

Additional Wiring in Old Buildings

1 family houses	492
2 family houses	55
3 family houses	3

4 family houses	5
Mercantile	282
Manufacturing	55
Garages	17
Miscellaneous	167
Total	1,076

The curtailment of building programs and the scarcity of electrical materials gives the general public the impression that there is very little electrical inspection to be done.

However, the tremendous increase in the war industries and the complete willingness of certain agencies to circumvent the National Electric Code, which is our wiring law, makes electrical inspection much more important than ever.

The ordinary wiring materials are almost impossible to get unless one has a good priority. For this reason we are asked every day to allow all kinds of dangerous wiring methods. Methods which have always been frowned upon and outlawed, because they were always considered dangerous.

We must be more alert today, as safety is still the prime requisite, whether it is in the home or in industry.

The fundamental purpose of the City of Quincy Wire Department is to safeguard the general public against loss of life and property by fire or shock.

This department can render its best service if all wiring done in this city is reported for inspection. Unfortunately this is not the case, for many do not know the law or they wilfully disregard it in an attempt to violate its provisions.

The majority of the electrical fires in this city can be traced to this type of work, and the tampering with or bridging of fuses. The fuse is well called the "safety valve" of the electrical circuit, and should not be tampered with by persons having little or no knowledge of the dangers involved.

Very truly yours,

FRANK LINTS

Inspector of Wires.

REPORT OF SEALER OF WEIGHTS AND MEASURES

January 3, 1944

HONORABLE CHARLES A. ROSS
Mayor of Quincy, Massachusetts.

Dear Sir:

I submit herewith the annual report of the Department of Sealer of Weights and Measures for the year ending December 31, 1943.

Respectfully submitted,

JAMES M. CANTFILL
Sealer of Weights and Measures.

REPORT OF ENGINEERING DEPARTMENT

January 3, 1944.

HONORABLE CHARLES A. ROSS
Mayor of the City of Quincy
Massachusetts

Dear Mr. Mayor:

The forty-fourth annual report of the Engineering Department for the year ending December 31, 1943 is herewith submitted. This report is of necessity brief, due to the curtailment of activities brought about by war restrictions in essential materials.

Such engineering work as was required by the various departments as well as the usual routine work in the office and in the field were attended to promptly. Lines and grades were supplied for sewer and drain construction, sidewalks and street repairs as indicated on the accompanying charts.

There was much agitation during the year to have various quarry holes in the city eliminated by filling. The old slate quarry in the Norfolk Downs section was pumped dry and approximately 25,000 cubic yards of solid fill was placed therein. The possibility of transferring this site to the Park Department to be developed as a park is under consideration at the present time.

Wilson's Quarry in West Quincy off Bartlett Street was also filled with the ashes, etc. collected by the Public Works Department. It is our desire to continue in the future the practice of filling various other quarry holes, and work will be started the first of the year to fill in Barker's Quarry on Quarry Street.

In December the City Council appropriated \$10,000 to be spent under the direction of this department in preparing plans and estimates to be used as post war projects. Work was started immediately with the personnel of the department working overtime. It is my intention to hire such outside help as may be necessary so that when the time comes we will have a reservoir of at least \$5,000,000 in projects prepared.

A major street construction project was completed during the early part of the summer. South Street was widened and constructed to a width of fifty feet from Washington Street to Clev-erly Court. East Howard Street was widened and constructed to a width of fifty-five and sixty feet from South Street to Quincy Avenue. Des Moines Road was extended and constructed to a width of sixty feet from Chubbuck Street to the Southern Artery.

The entire cost of the construction of these three projects, which amounted to approximately \$250,000, was covered by the Federal Aid Act of the United States government under the supervision of the Department of Public Works, Commonwealth of Massachusetts. The cost to the City of Quincy was for land damages only and amounted to about \$50,000.

Two of our men, Edmund J. O'Connell and James F. Kelley, are now in the armed forces of our country. Because of the forced curtailment in engineering work, it has not been found necessary to temporarily fill their places.

May I take this opportunity to thank you personally as well as all the other City officials for the interest and cooperation which this department has received during the year just passed?

Very truly yours,

GERHARD F. SCHAFER,
City Engineer.

REPORT OF CITY PLANNING BOARD

January 3, 1944

HONORABLE CHARLES A. ROSS
*Mayor of the City of Quincy
Massachusetts*

Dear Mr. Mayor:

We are herewith submitting the twenty-ninth annual report of the City Planning Board and wish to take this opportunity to thank you, the members of the Quincy City Council and the department heads for the interest and cooperation which we have received from all during the year.

The major achievement during the year was the enactment by the City Council of the zoning ordinance. The Board spent many months in preparing the ordinance, and in May a public hearing was held by the Board, after which minor changes were made before presenting it to the City Council. The City Council held a public hearing and the ordinance was passed as submitted by the Planning Board.

Many other problems of vital interest to the city as a whole have been discussed and plans formulated so that in the near future they may be presented through you to the City Council for action. There are two major projects which the Board hopes to present early in the coming year:

First, the proposed extension of Mount Wollaston Cemetery consisting of a part of Broad Meadows, and a roadway eighty feet in width on the southerly side of the Police Station from the Southern Artery to that part of the Broad Meadows which will remain after the proposed cemetery extension has been approved.

Second, the proposed development of the easterly side of Hancock Street including the widening of Cottage Avenue, Cottage Street and its extension, Miller Stile Road, Revere Road and the parking area between Hancock and Cottage Streets. It is the unanimous opinion of the Board that the fulfilling of these plans would greatly increase property values and open up a new district for business.

We are looking forward with interest to the many new problems which will arise during the coming year as the plans for post war rehabilitation progress.

Respectfully submitted,

WALTER A. SCHMITZ, *Chairman*
FRED E. AHEARN
HARRY H. KERR
DELCEVARE KING
J. EVERETT ROBBIE

GERHARD F. SCHAFFER, *Clerk*

REPORT OF THE BOARD OF SURVEY

January 3, 1944

HONORABLE CHARLES A. ROSS
Mayor of the City of Quincy
Massachusetts

Dear Mr. Mayor:

Since no questions arose which would come under the jurisdiction of the Board of Survey, no meetings of this body were held during the year of 1943.

Very truly yours,

LOUIS F. R. LANGELIER
JOHN J. MANNING
WILLIAM H. COUCH

GERHARD F. SCHAFER, *Clerk*

REPORT OF THE HIGHWAY DIVISION

January 28, 1944

HONORABLE CHARLES A. ROSS
Mayor
City of Quincy, Massachusetts.

Dear Sir:

The annual report of the Public Works Department is herewith respectfully submitted.

JAMES P. DONOVAN,
Commissioner of Public Works.

The activities of this Department include the Maintenance of Highways, Care of Municipal Buildings, Stable and Garage, the Street Lighting Schedule, the Forestry and Sanitary Divisions. The reports of the Sewer, Water and Cemetery Divisions are also enclosed.

Municipal Buildings

The maintenance of City Hall was carried on as usual the only special repair being the rebuilding of the chimney.

The rental of the annex was reduced in June owing to the fact that the W. P. A. activities had been terminated.

The Squantum Fire Station was added to the list of public buildings after its acceptance by the City last June.

The conversion of the oil heating plants has been completed at the West Quincy, Quincy Point and Central Fire Stations and a coal bin built at the Quincy Point Station.

Gypsy Moth and Forestry

Since there was no special appropriation this Division was unable to expand its Greenhouse and Nursery this year. The flower beds were cared for as usual but owing to shortage of skilled labor the tree planting program was greatly curtailed, only about 300 trees having been planted.

Many Norway maple trees have shown indication of Verticillium Wilt disease and winter injuries from the subzero weather. In some cases the leaves turned brown in July with a fungus-like growth on the limbs and trunks of the trees which had been injured by the severe weather. Many of these trees will not recover and will have to be removed.

We have worked out a plan to beautify the old Cemetery adjacent to City Hall. Thirty-eight trees which were in dangerous conditions have been removed, but we cannot complete the work until springtime.

In trimming trees for better lighting service this Department furnished Supervisors and the payrolls for this service were paid to the Treasurer by the Electric Light & Power Company as shown by the Treasurer's Report.

The Stable and Garage

There have been no exterior repairs at this plant. The oil burning equipment has been converted and the buildings are all heated by soft coal.

Sanitary Division

The City Treasurer's report shows the income from the sale of garbage to the various farmers and also the amount of the collections for scavenger work. The City Auditor's report shows the cost of the collections of garbage and rubbish and a detailed report of the care of dumps. We are now dumping the refuse at the Wilson Quarry on Bartlett Street, the Penn Street dump having been closed.

This Department collected salvage for the Defense Council and the amount of the payrolls, \$994.90, was credited to the Department.

Highway General Maintenance

This work includes the upkeep of Streets, Sidewalks, Drains and Tidegates, Equipment Tools and Snow removal.

No special appropriations were available for the Construction of Streets or Sidewalks.

Snow removal activities were greatly hampered by the shortage of labor and equipment. Our own equipment including thirty-nine truck plows, three snow loaders and four bulldozers were all in service so we kept the main arteries open in connection with the Street Railway Company and plowed the side streets.

We hired all available men and equipment during the heavy storms.

Since we had no horses the sidewalks were not plowed.

Snow fences were installed at all exposed locations.

Tar Patching

In addition to our regular tar patching we take care of the Water, Sewer and Gas Trenches following the installation of the Service Pipes. These trenches are filled temporarily and after settling are permanently repaired, and charged to the departments and credited to the Highway Department. The credits received from the Gas Company are credited directly to the Treasurer's Office and are absorbed by the regular fund as shown by the report.

Gutters are paved and repaired as necessary.

Street Repairs

We made street repairs on Hardwick and Ashworth Streets and Faxon Lane where the Water, Sewer and Gas Companies had made openings for the installation of their service pipes.

The cost of this work appears in the credits to the Department.

The W. P. A. did not finish their Car Rail Project on the Squantum line so this Department rebuilt the roadway from Billings Street through Newbury Avenue and Sagamore Street to Hancock Street after they had discontinued their work. The balance of their appropriation reimbursed the Department for labor and equipment and materials used.

We also patched and rolled Fenno Street and Rice Road.

Sidewalks

In addition to General Maintenance we installed curbing on the Squantum Causeway, Des Moines Road, Huckins and Standish Avenues, the site of the new Squantum Fire Station, an amiesite sidewalk was laid at Water Street and Faxon Lane where several new houses had been built, also a short stretch of sidewalk on Canal Street, Washington to Brackett Street. Please refer to the report of the City Engineer for distances and exact locations.

The wall supporting the sidewalk on Sagamore Street caved in and fell several feet into the Atlantic Playground and has been partly rebuilt. The Grove Street wall was also replaced.

Street Oiling

We carried on an extensive program of Street Oiling in order to preserve the surface of our roadways, applying blankets of asphalt and crushed stone where most necessary in the various sections of the City as follows:

Ward 1—Butler Road and Butler Road Extension, Bracket Street, Carruth Street, Chestnut Street, Dimmock Street, Merrymount Road also Extension, Putnam, Greenleaf to Butler Road, Palmer Street Revere Road, Southern Artery Hancock Street to River Street, Samoset Avenue, Spear Street, Upland Road 600 feet from Granite Street, Victoria Road, Squanto Road to Shore Avenue and Virginia Road.

Ward 2—Avalon Avenue, Baker Avenue, Baxter Street, Baxter Lane, Bay View Avenue, Edison, Curtis Avenue, Farnum Street, Lawn Avenue, Moore Street at Baxter Avenue, Main Street, South Street Artery to Winthrop Park, South Walnut Street, Thompson Street, Whiton Avenue and Winthrop Park.

Ward 3—School Street at Burns Memorial, Fort Street.

Ward 4—Dayton Street, Doble Street, Ferriter Street, Gridley Street, Grove Street, Hall Place, Larry Street, Robertson Street, Rogers Street, Sunnyside Road, Seymore Street, Shawmut Street, Upton Street and Wesson Avenue.

Ward 5—Safford Street, Newport Avenue from Brooks to Holbrook Road, South Central Avenue, Beale to Summit Avenue.

Ward 6—Squantum—Park Avenue, Huckins Avenue, Mayflower Road and causeway.

W. P. A. Car Tracks Project—East Squantum Street from Boulevard to Faxon Road, Billings Street from East Squantum Street to Prospect Street, Newbury Avenue, Billings to Sagamore Street, Sagamore Street, Faxon Road full length and Newhall Street.

Drains

In addition to the General Maintenance of Drains we relaid a 10" Drain in Harriet Avenue and thoroughly cleaned the Elmwood Avenue drain also the drain on Faxon Road at Edwin Street. Sachem Brook was piped and refilled by the Sewer Department.

Tidegates were repaired and kept open after severe storms.

Credits

The credits in the Highway Department amounted to \$24,312.38 detailed as follows:

\$ 2,636.87	Tar Patching for the Water, Sewer and W. P. A. accounts.
3,537.99	Salvage—Defense.
2,881.63	Equipment used in W. P. A. Projects and for the services of our Mechanics in various departments.
2,978.70	Street Repairs paid by the Sewer, Water Departments for replacement of trenches on Faxon Lane, Ashworth Road and Hardwick Street.
12,260.19	For sale of gasoline to City Departments.
17.00	For Sidewalk Repair where tree was removed.
<hr/>	
\$24,312.38	Total

Street Lighting

We have conformed to government restrictions in the matter of new services entailing wiring and in the removal of shades and restoration of lights at danger points throughout the City. Our present schedule is in operation as follows:

117	1,000	C. P. Lamps
323	600	C. P. Lamps
156	400	C. P. Lamps
680	250	C. P. Lamps
2,280	60	C. P. Lamps
2	100	C. P. Directional Lamps
9	100	Watt Spot Lights
42	60	Watt combination Fire and Police Signals
28	60	Watt Traffic Signals
5	60	Watt Caution (flashing) Lights

We also light the Wollaston Subway and the overhead bridge at the Quincy Railway Station.

Miscellaneous Activities

In addition to the upkeep of Brooks, Bridges, Fences, Signs, Street Markings, Street Parks and the Parking Area, we take care of Emergency Work that is not covered by an appropriation. This year we placed the Memorial Tablet at the Stone Temple, City Square; collected tin cans and paper; removed sand bags from the windows in the basement at the various School Buildings; cleared Adams Field after the Air Raid Demonstration and took care of the grounds at the Presidents' Houses. Where possible these activities were paid back in the form of credits to the Department.

The Dog Pound is maintained through this Department and in addition we were obliged to rebuild the chimney and its foundation.

Signs, Painting and Street Marking

Street Signs—We made about 1,200 street signs the past year and about 300 are damaged each year, also about 75 sign posts

which are hit by automobiles. Signs and poles were erected for all traffic ordinances passed by the City Council. We repainted 39 Soldiers' Square signs. Eight (8) large signs were erected and later removed for the Community Fund Drive, also eight (8) large signs for the Red Cross Drive. Fifteen (15) Coasting signs were set out where directed by the Police Department. All Signs for illness, detour and no parking were also placed by order of the Police Department.

Painting—In City Hall the City Clerk's, the Assessors' and the City Solicitor's offices were painted, also the office of the Rationing Board, Saville Row. The Sears Estate which was taken over by the City was painted inside and outside. We also took care of the City Pound. For the Highway Department we painted and erected 3,000 feet of Snow Fencing and painted the loaders and plows.

Fences—We painted fences on Sea, Vane and South Streets.

War Memorial was erected on the Adams Temple grounds, City Square and the shrubs were planted by the Forestry Division.

For Pet Stock Shows by the Parents and Teachers Associations of the Massachusetts Field, Wollaston and Parker Schools we erected Snow Fences, Ropes and Stakes. We also set out ropes and stakes for the Cemetery Department on Decoration Day.

New Equipment

- 1 Bulldozer
- 3 Sand Spreaders

A special appropriation covering the cost of a bulldozer for service at the Dump and three sand spreaders to be used in spreading sand on icy streets and also to cover wet asphalt when the Street Oiling program is in progress.

New Buildings

The Squantum Fire Station was completed and accepted on June 19th. The City completing the grading and sidewalk.

The temporary Hospital Building was completed and accepted by the City as of July 24th. The grading was completed by the City with the exception of the seeding which will be done this Spring. 1,675 feet of 5,000 volt paper lead cable was installed underground for power and light service, also we shortened the Tennis Court and put in drainage.

Quarry

The filling of the abandoned Slate Quarry at Apthorp and Marshall Streets and Billings Road.

We advertised for proposals and the bid submitted by the Walter Reed Corporation was accepted.

We constructed a temporary roadway since we could not enter the Quarry through private lands and the contractor completed this work by installing 21,959.5 cubic yards of fill.

JAMES P. DONOVAN,
Commissioner of Public Works.

ANNUAL REPORT OF THE SEWER DIVISION OF THE PUBLIC WORKS DEPARTMENT

January 3, 1944.

MR. JAMES P. DONOVAN,
Commissioner of Public Works,
Quincy, Massachusetts.

Dear Sir:

I respectfully submit the report of the Sewer Division of the Public Works Department for the year ending December 31, 1943:

For financial statement, see Auditor's report.

Particular Sewers

Two hundred six connections were made to the common sewer located by wards as follows:

Ward I	56	Ward IV	26
Ward II	11	Ward V	73
Ward III	17	Ward VI	23

Classification:

Single Houses	179	Four-family Houses	1
Two-family Houses	16	Business Buildings	10

Total number of feet laid	9,562.00
Total cost	\$11,080.84
Average cost per connection	\$53.79
Average cost per foot	\$1.159
Average length per connection	46.42 feet

Construction

Eighty-four one hundredths of a mile, or less than the average amount of common sewers, was laid this year. This was due partly to the shortage of help and the character of the work involved. Ledge was encountered in Adele Road, Ashland Street, Bunker Hill Lane and Furnace Brook Parkway. On other extensions, ground water conditions made it necessary to lay underdrains and operate pumps during construction. Cuts deeper than the average, requiring bracing and sheathing, also contributed to the less than average mileage of sewers produced.

A tabulation showing the location, mileage and other particulars is made a part of this report.

Maintenance and Repairs

Inspection, cleaning and flushing was carried on as time would permit and only on those sections that were absolutely necessary.

Repairs were made to an 18-inch sanitary sewer line on Meadowbrook Road.

The system now comprises 166 miles, about 50 miles of which is over forty years old and requires more attention to keep operating properly. Replacement of a large part of our cleaning equipment must be made to carry on this work for next year.

Storm and Surface Drains

A 60" reinforced concrete pipe was laid in Sachem Brook from Billings Road to Quincy Shore Boulevard. The pipe line was covered and the abutting land rough graded. A channel for the outlet was dredged to low water mark and a tidegate chamber built for the installation of two 60" tidegates to be placed in tandem.

About 600 linear feet of stone masonry side wall five feet high was built on Furnace Brook near the Eventide Home, Adams Street, and a reinforced concrete slab placed at the driveway.

Miscellaneous repairs and replacements were done at the direction of the Commissioner of Public Works.

Very truly yours,

WALTER S. MCKENZIE,
General Foreman, Sewer Division.

REPORT OF CEMETERY DIVISION

January 3, 1944

HON. CHARLES A. ROSS
Mayor of Quincy
Quincy, Massachusetts

Dear Sir:

The Commissioner of Public Works respectfully submits the following financial report of the Cemetery Department for the year ending December 31, 1943.

Receipts

Expenditures

Care of lots	\$1,235.00
Sale of lots	11,960.00
Interments	11,381.00
Foundations and Grading	2,623.97
Perpetual Care	13,665.00
Perpetual Care—Income	9,792.90
Other Trust Funds—Income	63.31
	<hr/>
	\$50,721.18
Clerk and Extra Clerical	\$825.00
Labor—including Foreman	44,081.56
Supplies and Expense	2,169.32
Equipment—Maintenance and Operation	1,013.45
Subsoil and Loam for New Land	1,462.00
New Equipment	226.88
	<hr/>
	\$49,778.21

There were five hundred and seventy (570) burials during 1943 and six (6) removals.

A statement of the Perpetual Care and other Trust Funds investments will be found in the City Treasurer's report.

Very truly yours,

JAMES P. DONOVAN

Commissioner of Public Works.

HARBOR MASTER'S REPORT

January 12, 1944

HON. CHARLES A. ROSS,
City Hall,
Quincy, Massachusetts.

Dear Sir:

The report of the Harbor Master of the City of Quincy for the year ending December 31, 1943 is herewith submitted.

Receipts by water for the year were as follows:

City Fuel Company, 18 Barges.....	14,020 Tons Coal
Standard Oil Company, 120 Barges and Steamers	31,427,823 Gallons
Quincy Lumber Company, 1 Motor Barge.....	175,987 Feet Lumber
Proctor Gamble Company.....	No Ships

There were a total of 92 launchings: at the Quincy Fore River Plant 28; at the Quincy Adams Yacht Yard 10 Submarine Chasers; at the Northeast Shipbuilding Company 54 Towboats and Barges.

I made 10 trips with Powerboat going to the aid of boats in distress, aground, capsized; picked up 4 rowboats. All of same were claimed by their owners. Called Coast Guard several times throughout the winter in reference to boats in trouble; also in reference to a plane down in Quincy Bay, also as to buoys out of position, also as to beacons that were extinguished. Called Towboat Company in reference to tow boats that were in trouble.

Respectfully submitted,

JAMES A. M. NASH

Harbor Master.

REPORT OF CITY SOLICITOR

January 3, 1944

HON. CHARLES A. ROSS
Mayor of Quincy
Quincy, Massachusetts

Dear Sir:

During the past year the City Solicitor has carried on the work of the Law Department of the city in accordance with the requirements of the statutes and ordinance in relation thereto.

Very truly yours,

JOHN P. FLAVIN
City Solicitor.

THE DEPARTMENT OF HISTORICAL PLACES

January 18, 1944

HON. CHARLES A. ROSS, *Mayor,*
City of Quincy,
Massachusetts.

Dear Sir:

The Board of Managers of the Department of Historical Places herewith submits its fourth annual report.

The Board is very much pleased to report that the Birthplaces of our two Presidents are now generally speaking in excellent repair and no major repairs should be necessary for some years.

Quincy is indeed fortunate in owning two of the oldest and most historic houses in our country and it is encouraging to note that slowly but surely they are receiving the respect they deserve.

During the past year both houses have been visited by many notable people from the United States and from Mexico, Cuba, Egypt, England, and Canada.

When traveling restrictions are removed, it seems reasonable to expect that the Birthplaces will register many more visitors.

The Board takes this occasion to acknowledge the support and cooperation given us by the Mayor and members of the City Council.

Respectfully submitted,

MAURICE SPILLANE, *Chairman,*
GRACE P. BONSALE, *Secretary,*
HARRIET B. PIERCE,
LAWRENCE W. LYONS.

REPORT OF CITY CLERK

To His Honor, the Mayor of the City of Quincy:

I have the honor to submit the fifty-fifth annual report of the department, being for the year ending December 31, 1943.

Receipts

Licenses:	
Theatre—Sunday.	\$2,770.00
Permits:	
Marriages	2,014.00
Miscellaneous:	
Recording	1,054.28
All others	1,035.25
	\$6,873.53

The above sum has been paid to the City Treasurer.

Number of marriage intentions issued in 1943.....	1,005
Number of marriages recorded in 1943	1,053
Number of births recorded in 1943	2,175 ✓
Number of deaths recorded in 1943	993

The number of dogs licensed in 1943 was 2,010 males; 846 spayed; 202 females; 2 kennels and 6 transfers, for which the sum of \$6,773.50 was collected. The sum of \$6,160.00 was paid to the City Treasurer for the use of the County and the sum of \$613.50 was paid to the City Treasurer for the use of the City. The sum of \$4,193.00 was collected for hunter's licenses. The fees amounting to \$475.25 were paid to the City Treasurer and the balance to the Commonwealth.

Annexed are the births, marriages and deaths recorded in Quincy in 1943 and the election returns.

HATTIEMAY THOMAS,

City Clerk.

REPORT OF THE PARK DEPARTMENT

January 20, 1944

To the Honorable Mayor, Charles A. Ross

Dear Sir:

An account of the activities and accomplishments of the Quincy Park Department is herewith presented constituting the fifty-fifth annual report since its inception.

We all have one common aim—win the war. This of course means hard work, long hours and many sacrifices. Therefore recreation is essential to young and old, soldier and civilian alike. Morale must be sustained on the home front as well as the battle front.

To meet these demands, the Park Department has made every effort to use all areas and facilities wisely and to the best advantage of our citizens.

In the past, a detailed report covering recreation activities, developments, recommendations and expenditures was submitted but again we conform with war time standards and herewith present in condensed form, our report for City Records.

Regarding finances, it is gratifying to report that the budget was strictly adhered to and all plans of expenditures carried out with satisfying results.

In closing, the Board members wish to take this opportunity to thank you for the privilege of serving the City of Quincy and assure you that we will make every effort to be a credit to your administration and contribute our share to the all-out war effort of our nation.

Very truly yours,

J. ERNEST COLLINS
Chairman Board of Park Commissioners

Park Board

The Park Board met for the first time in February 1943 and organized as follows:

J. Ernest Collins, Chairman
William J. Mitchell, Vice Chairman
Joseph W. Pinel, Sr., Secretary

Since that time, meetings have been held every Monday evening at the office in City Hall.

Improvements and Maintenance

During the past year, all Baseball Fields were put in condition during the spring months and maintained for the season. Softball Fields and Football gridirons each received the same attention.

The Maintenance Department under Foreman Harry Boyd, and a skilled personnel, covered every phase of our work which included grading, seeding, carpentry, landscaping, masonry, construction and forestry.

Their fine work brought many testimonials of praise from those who use the Park system. The Board takes this opportunity to thank them for a job well done.

Permits and Services

A full time service was maintained at the Park Board Office for all who wished to use the facilities of the Park System. This was taken care of by Mrs. Gertrude McIntyre, in addition to her duties as typist, keeping records of all Park activities, reports, publicity and miscellaneous duties at the office.

Tennis Courts

Twenty-four tennis courts were lined off and equipped with nets. A new court was added at Bishop Field. There are five additional courts at Faxon Field maintained and equipped by Mr. Henry Faxon.

Bowling on the Green

There was continuous service all through the season with a regular Custodian assigned. The Greens are in constant use.

Softball Fields

The softball diamonds at Faxon Park, Faxon Field, Welcome Young, Munroe, Pageant No. 1 and Pageant No. 2 and Upper Merrymount were maintained and lined off for games.

Horseshoe Pitching

This sport has proved so popular the Board encouraged it as a regular playground feature. Competition was conducted on an inter-playground scale, with finals played at the end of the season.

Beaches

With gasoline rationing, the Board realized the necessity of having all our available bathing areas prepared for use. With this in mind, the Board refused an offer to sell the so-called Ward II Beach property and graded and sanded this beach which proved very popular during the summer. This venture was so successful, a shelter was erected. Avalon Beach was also taken care of and proved very popular.

We feel that there should be more public bathing beaches throughout the City and recommend a study and survey of the possibilities of additional bathing areas.

Merrymount Park

Sometime ago, a study of this beautiful location was made by a competent landscape artist and a plan was prepared and submitted to the Mayor. This plan was called the Kelloway Plan. The Board feels that this plan should be carried out and this year a start was

made towards this aim. The lilac gardens and walks were started which will be added to from time to time, eventually making this section one of the most beautiful spots in the park.

Municipal Stadium

Realizing the necessity of providing protection for Park property which was being stored in the open, the south end of the Stadium was enclosed, making an excellent storage place for some of our equipment. Plans are underway for completing the north end this coming year.

Football Fields

North Stadium, Faxon Field, O'Rourke Field, Kincaide Park, Upper-Merrymount, Municipal Stadium, O'Neil Field, Munroe, Le-Brecque and Montclair, all fields were equipped and lined off for games.

Skating Rinks

Skating rinks and ponds were serviced and maintained at Manet Lake, Adams Shore, Riley's in Houghs Neck, Shed Street, Perkins Field, Broady Ave., Stoney Brae, Sailor's Home, North Stadium, Montclair, Squantum School, Pond Street, Faxon Meadow and Picket's Pond on Grove Street.

Recreation

With a curtailed staff, due to the dropping of the W. P. A., the scarcity of trained or experienced instructors for the playgrounds and increased demands on our facilities, we found it necessary to obtain permission to engage an assistant to Mr. William Bowyer, Supervisor of Playgrounds for 1943. Mr. LeRoy Rogers was appointed and proved to be an excellent choice. The Board found that Mr. Bowyer and Mr. Rogers were very efficient and cooperative and under their direction, taking all things into consideration, our playground season, which ended with a field day, was a complete success.

During the season, various methods and plans for the playgrounds were discussed and are still being considered for the betterment of our playgrounds. The Board will report on this matter when they have reached a final decision.

PLAYGROUND REPORT

1943

Athletics

Due to our inability to offer parts of the 1942 program, the committee decided to offer a bigger athletic program and procured the services of Mr. LeRoy Rogers, Physical Instructor and Coach of the North Quincy High School. Mr. Rogers did some very excellent work showing some very fine results. Time was spent on the various sports and mass games.

Small Children's Activities

Many stories, simple ring games etc. received the special attention of the Instructors.

Story Telling

We did not have the professional story tellers this year but the program was curtailed very little. Story telling played its usual prominent part with considerable oral book reading in many of our playgrounds.

Arts and Crafts

The entire handicraft program was left to the individual Instructors this year. The group did their level best to make up for whatever curtailment was necessary. Special emphasis was placed on the reed work. I feel that most people were highly satisfied after witnessing the results on the Field Day.

Handwork

Embroidery, paper weaving, waste baskets, art work on cloth, puppets, silkatine weaving, picture frames, stocking dolls, purses, pillow covers and many other valuable and helpful crafts.

Novelties

Lanyards, bird houses, model airplanes, name shields, birch canoes, wigwams and many other novelties were made.

Reed Work

Baskets, trays, candlesticks, rattan, serpentine work, bowls, bracelets and many more interesting articles.

Plaster Paris

Pins, pictures and various other articles were made.

Folk Dancing

Some of the Instructors made a specialty of the various folk, military and modern dancing with satisfying results.

Clubs

Promotion of clubs to assist the Instructors in their many Playground duties.

Camp Craft

Hiking, fire-making, cooking and camping activities were given their rightful place.

Community Singing

This was promoted and conducted for playground spirit with complete success.

There are no definite figures to offer for playground attendance due to conditions beyond our control. From observation, it is safe to say that figures were high.

This year at our final activities, we conducted the baseball game for the city championship which was won by the Merrymount Playground. Many novel events were conducted before the final game.

The usual track and field meet with three hundred boys and girls taking part was held.

The crafts exhibit proved of special interest to the parents and children alike.

The horseshoe tournament took its annual place among the feature events with many interesting results and sidelights.

The vehicle parade with its line of bicycles, tricycles, wagons, carriages and doll carriages was pleasing.

The usual numerous awards were given in the form of Defense Stamps.

I wish to express my thanks to the Judges: Dr. Kendall, Mrs. Edwinna Robb, Mrs. Lavendar and W. Edgar Wylie. Reporters, Mr. Donald Vincent and Percy Lane for their excellent accounts in the local press, and the Park Board, Foreman Harry Boyd and all those instrumental in making the 1943 Playground Season what it was.

Sincerely,

WILLIAM BOWYER, *Playground Supervisor*

Recommendations

The Park Board has no other recommendations to submit other than those mentioned in previous items and those submitted to the Post War Planning Board.

Permits

During the year, the following number of permits was issued for various activities.

	Permits	Estimated Attendance
24 Tennis Courts	13,500	38,000
9 Baseball Fields	700	150,000
School Baseball	400	15,500
14 Softball Fields	16,000	60,000
10 Football Fields	150	40,000
School Football	60	50,000
4 Soccer Fields	50	2,000
1 Bowling Green	250	10,000
Field Days and Picnics	200	100,000
Fore River Club House	Occupied by U. S. Army	
Total	31,310	465,500

Expenditures

The financial statement of this Department may be found in the Auditor's Report.

Vandalism

There has been no improvement in this annual headache.

Conclusion

We acknowledge the magnificent spirit of cooperation evidenced by His Honor, the Mayor, the City Council, the Quincy Patriot Ledger, the Police and Fire Departments, the City Engineer's Department, Public Works Department, Foreman of Parks, Park workers, Supervisor of Playgrounds, Playground Instructors, members of all leagues sponsored by the Board, referees and umpires of all leagues, and anyone who by act or deed has made the work of 1943 a pleasure. It is fitting that we should here record our appreciation and gratitude.

Respectfully submitted,

J. ERNEST COLLINS, *Chairman*
WILLIAM J. MITCHELL, *Vice-Chairman*
JOSEPH W. PINEL, SR., *Secretary*

REPORT OF THE TRUSTEES

TO HIS HONOR, THE MAYOR OF THE CITY OF QUINCY:

The seventy-third annual report of the Trustees of the Thomas Crane Public Library is submitted herewith.

In order to conserve paper and printing this report is purposely made brief.

It is a satisfaction to report that the book appropriation for the year 1943 was materially increased from that of 1942, the latter of which was abnormally low. The need for the library to keep up its stock with the latest and best books is as essential in war as in peace times.

Changes in personnel of the staff have been more than usual. The Thomas Crane Public Library has three stars on its service flag. One of our assistants is enrolled in the Women's Army Corps and one in the Women's Reserve of the Marine Corps. The librarian has been fortunate in obtaining qualified substitute help for these positions and also in filling other vacancies, which have occurred from time to time.

The library suffered a distinct loss in the death during the year of John V. Mead who had served as janitor for over eighteen years. Mr. Mead was a veteran of the Spanish American War and was a faithful, industrious employee, always loyal to the trustees and to the library.

The lecture room in the main library has been used very extensively during the year. The Quincy Chapter of the Red Cross and various civilian defense units, war bond campaign committees and post-war planning groups are among the organizations which have availed themselves of this privilege.

The first part of the year a ruling of the War Production Board necessitated converting the heating plants in the main library building from oil to coal firing. Grates for hand firing were installed in one of these buildings and an automatic stoker in the other. It was necessary to install coal bins for this purpose. The oil burners have been kept and it is hoped that they can be re-installed after the war.

† Deceased.

In September this library was requested by the Quincy Committee of the 3rd War Loan Drive to help by organizing a Books and Authors Rally, a nationally organized promotion for the sale of bonds. The request was granted and Mr. Hill, the librarian, was made Rally chairman. The result was a successful and well attended meeting in the Quincy High School auditorium which netted well over the goal set of \$2,000,000 in war bonds sold.

The members of the Board take this opportunity to attest again the loyal and efficient service of the librarian and staff and to thank the Mayor and City Council for their cooperation in the work of this department.

Respectfully submitted,

GEORGE E. ADAMS, *Chairman*,
GEORGIANA CUSHING LANE, *Secretary*.

REPORT OF THE LIBRARIAN

To the Trustees of the Thomas Crane Public Library:

This report of the Thomas Crane Public Library for the war year, 1943, will record no outstanding achievements, but we trust that it will be found to contain evidence that, in both tangible and intangible ways, some small contributions have been made to the war effort. Naturally it has been a year of many adjustments and vexing problems, and we have not accomplished all we hoped, but, on the whole, the satisfactions of the year outweigh the disappointments.

Certainly, it is a satisfaction to be able to report the recovery of some of the ground lost through the severe cut in the book appropriation in 1942 to only fifty per cent of that of the three previous years. The increase of \$4,500 for books in 1943 was used largely for books for the branch libraries, which had suffered most severely, but, as it was not available until April, the increased purchasing power did not affect the circulation until the fall months.

That the figures for the circulation of books for 1943 showed a considerable loss was disappointing but not unexpected. Quincy is a typical war industry city with a very large proportion of its working population, men, women and girls, engaged in long war-time hours, leaving little time for reading. Hundreds of our young men and many young women are in the armed forces, and a considerable proportion of these had been regular borrowers. That our circulation statistics are not out of line is shown by the report on a questionnaire issued by the American Library Association, which reveals that practically all public libraries have suffered similar losses in book borrowing as high as twenty per cent. However, it is interesting to note that beginning in November and continuing into January of the current year, there has been an upswing, the returns showing very appreciable gains over the same months in 1942.

It is also a satisfaction that we have been able to keep all our branches and other services intact and going. It was, however, necessary because of the gasoline shortage to cut down the branch exchange of books from the daily schedule to two days a week. Though this has caused some inconvenience to our branch borrowers, it has been accepted in good spirit. A check of the circulation figures shows that the percentage of circulation losses ran fairly even over the whole system, with the exception of the music room and the hospital service where the loss was very small. Miss Zottoli, our hospital librarian, attributes her decrease almost wholly to the unusual number of contagious diseases, principally pneumonia, in the hospital in 1943. Naturally such patients are not allowed the use of library books.

Even if the reference department cannot report as many requests for information as usual, the character of the requests shows that much real help was given to people engaged in war activities and research work. For two or more years, Mrs. Wilford, the reference librarian, has been engaged in indexing some of the histories of Quincy, and especially the related pamphlet material. Thus, she has made much fugitive information of importance instantly and easily available, and already this has been of decided help to those

interested and especially the teachers engaged on the information booklets about Quincy sponsored by the Quincy School Department. This is valuable work of a permanent nature that, when done, is taken for granted without thought of the time and patience and intelligent work that goes into it.

Miss DiBona has continued her work on the index to the Quincy Patriot Ledger, and now this newspaper is completely indexed for all important local events from 1915 to July 1928 and from 1932 to date. The gap of three years should be completed in another year or two. The weekly book comment by Mrs. Joyce have appeared regularly in the Patriot Ledger, except for the summer months, and she has given book talks to many groups.

It is also a real satisfaction that results have begun to show for the work done in the days of the W.P.A. in the mounting of pictures under the direction of Mrs. Alice Brown, who has charge of our picture collection. This collection of pictures illustrative of almost every conceivable subject has grown to the number of 4406, all so classified and catalogued as to be readily available. This last year the circulation of pictures has increased seventy-five per cent, and there has been a gratifying use of this feature by Quincy merchants for advertising purposes. An innovation and example of initiative has been the establishment by Miss Bean of a small young people's collection of books in a corner of the reference room, and this has already proved popular with the group for which it was instituted.

By having on hand and available technical and other books of assistance to war workers, and through our reference room, the library has made many indirect contributions to the war effort. Our most direct contribution was through the Books and Authors War Bond Rally on October 11, at the end of the Third War Loan Campaign. This library accepted the invitation of the Quincy War Bond Committee to arrange for this project, and the librarian was made Rally Chairman. He had the cooperation of a small but enthusiastic and hard working committee and also the invaluable assistance of Miss Martha Huddleston, Director of the Books and Authors Committee, War Finance Division, U. S. Treasury, which also secured the authors who spoke at the Rally at the Quincy High School Auditorium. An audience of more than one thousand was present and war bonds and stamps were sold and credited to the Rally amounting to \$2,060,810, more than double the quota assigned the project. The addresses of the authors, the sale of manuscripts and the responsive atmosphere of the assemblage were added evidences of the success of the Rally.

The librarian has been asked to be the librarian of the Quincy Defense Council. So far this has not entailed much work on his part. Eventually, however, the Thomas Crane Public Library will have the custody of the records of that organization, valuable historical source material of the part played by Quincy in the present war.

Last summer this library suffered a loss in the retirement of Miss Sarah B. Kingman, children's librarian for over eighteen years. Miss Kingman was a real children's librarian; she knew children's books and her standards were high; she liked children, had patience and a sense of humor in dealing with them. Her relations with parents and teachers were congenial and cooperative. For a number of years she had entire charge of the school

collections of books sent to the elementary grades, and she put an immense amount of thought and hard work into that department. Her associates on the staff miss her, and it is safe to say that Miss Kingman will go on for many years living in the memories of the boys and girls, many of them now fighting our battles, who over these eighteen years she guided and helped and to whom she was a real friend. In September Miss Greta Rose resigned her position as children's librarian of the Swampscott Public Library to become Miss Kingman's successor. Miss Rose, a graduate of the Simmons School of Library Science with special training in children's work, has taken hold with energy and enthusiasm.

The much regretted resignation of Miss Margaret Hebert as music librarian at the end of 1942 was commented upon in the report of that year. It took some time to find her successor, but in March Miss Marjorie Holman came to us from the West Hartford Public Library and has proved by training, qualifications and interest in her field, well capable of carrying on the work in this special department.

In January 1943 Miss Claire Germaine, junior assistant, joined the Women's Army Corps, and in April Miss Carol Philip went with the U. S. Marine Corps Women's Reserve. Both have advanced in rank, Miss Germaine being a sergeant. We have been proud to add their stars to our service flag, which now has three stars. The other star is for Lester White, who enlisted in the U. S. Navy in 1942. During the year we lost by resignation Mrs. Elinor Stelfox, and Miss Carolyn Kittredge, and Miss Irene Ponti left after being married. For these vacancies we consider the library very fortunate in securing the substitute services of Mrs. Marie Zezzos, Mrs. Betty Morris, Mrs. Esther Mennell, Mrs. Frances Webber and Mrs. Helen Griffin.

The death of Mr. John V. Mead in December came as a shock to all the staff. Mr. Mead began his services as janitor about six months before I came to this library. Through all these years his loyalty and devotion to the library and librarian could always be counted upon, and I also regret the loss of a real personal friend.

Before concluding this report, I want to thank all the members of the staff who have loyally carried on the real burden of the work of the year under often disturbing conditions. I am especially grateful to Miss Callahan whose regular duties were augmented by extra details of wage check offs and the many schedule difficulties due to staff changes and the large number of absences caused by illness during the year. Your Board of Trustees have given me much personal help, and I am deeply appreciative of your support and confidence.

Respectfully submitted,

GALEN W. HILL,
Librarian.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Quincy:

The School Committee for 1943 presents its annual report to the citizens of Quincy.

The schools as usual have cooperated whole-heartedly in the various phases of the War effort. In February, the school personnel conducted the registration for War Ration Book #2. Again in October, the school personnel conducted the registration for War Ration Book #4. To the personnel and students who did this work so efficiently and enthusiastically the city of Quincy is indebted.

The Committee has on many occasions been confronted with requests from boys who entered the Service before completion of their High School education that the School Committee grant them diplomas of graduation.

The School Committee has adopted, as a basis for practice, the program outlined by the National Association of Secondary School Principals providing for allowance of credit toward high school diplomas for all types of courses taken in service, also, up to a limited extent, for the educational experience of military service as such; that it be the established policy of the School Committee that boys entering military service who have earned 50 points or more be considered eligible for a high school diploma upon completion of their basic training and that boys who have less than 50 points be eligible for a high school diploma upon completion of basic training plus sufficient accredited courses to make up the necessary points.

To further assist boys who are about to enter military service the Committee voted that summer courses be offered. Courses in mathematics and physics were suggested,—additional courses to be provided later if warranted by the demand.

The sale of war stamps and bonds has been carried on through the schools very effectively,—approximately \$180,000 worth of stamps and bonds having been sold through the schools during the past year.

During the spring the metal window sashes and metal doors at the Trade School were repaired, recaulked and repainted. The interior of the Trade School, excepting the shops, was given a refreshing coat of paint.

During the summer the interior of the Massachusetts Fields School, excepting the basement, was painted, and in the fall the exterior of the Montclair School was waterproofed.

The following members of the school personnel retired during the year: Miss Sally F. Dawes, head of the English Department at Quincy High School since 1913, Mrs. Alice Maude Bates of the Lincoln School, Mrs. Lillian Palmer of the Central Junior School, Miss Lucy H. Rand, school nurse, Mr. Daniel Murphy and Mr. Robert Dykes of the custodial staff. Miss Annie E. Burns, a teacher in the Quincy schools since 1897, died after a short illness.

For the school personnel and students who have entered the armed forces of the United States, the Committee, cognizant of

their contribution during this crisis, wishes an early termination of the war and a healthy and speedy return.

To Mr. Owen Webb of Quincy the School Committee is truly appreciative. During the football season, the outlook for this sport appeared unfavorable. It appeared, at the beginning of the season, that there would be no coach. Mr. Webb volunteered his services. Every day for three or more hours Mr. Webb could be found on the field of practice with his boys. He was a true sportsman and a gentleman. The boys and the city of Quincy express their gratitude to a true and sincere public spirited citizen. Such an exhibition by Mr. Webb is in these days, surely, a rarity.

In December the Superintendent of Schools, James N. Muir, presented a communication advising the Committee of his intention to retire from the School System on May 1, 1944. His retirement was accepted and the Committee voted that applications be received for his successor.

To Mr. Muir, who devoted a lifetime to one of the highest callings, the best wishes of the Committee are extended for a pleasant retirement. The Committee expresses its gratitude for his interest and industry tendered this school system. He truly should be proud of his accomplishments in Quincy.

* * *

The foregoing report was prepared by Mr. L. Paul Marini and was adopted as the report of the School Committee for the year 1943.

REPORT OF THE SCHOOL COMMITTEE

IN MEMORIAM**ANNIE E. BURNS**

Died April 28, 1943

Teacher 1897-1943

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Quincy:

In accordance with the usual practice I am submitting the Annual Report for 1943.

This has been a difficult year in school work. The effect of war is felt keenly in the public schools. This makes it more difficult than usual for commonsense and good judgment to prevail.

The principals and teachers have made every effort to carry on the work and for the most part have done a good job.

There has been a good deal of sickness during the year among pupils and teachers. When a large percentage of pupils is out of school, it means a drawback to those who are in school because the teachers feel they must go over the same work again with those who have been out. There has been much time lost by the teachers and it is only the exceptional substitute who keeps the children up to par when the regular teacher is out.

We started in September with a surplus of teachers and during the past month we have been obliged to go on without our full quota of teachers. A great many changes have taken place in the personnel of the teaching force. Fifty teachers, one school nurse, and one clerk have left the school system during the year.

Of these—

- 34 resigned
- 4 retired
- 12 went into military service
- 1 is on leave—loaned to the State
- 1 deceased

During 1942, as reported in the Annual Report of the School Department for that year:

- 26 resigned
- 2 retired
- 2 died
- 17 went into military service
- 2 were on leave of absence

This shows the tremendous change that has taken place during the past two years.

If our schools are to justify themselves in these times they must of necessity be geared up more closely to the demands which warfare is making on education. The youth leaving the schools will have to adapt themselves to rigorous demands. We have attempted to change toward the war effort.

We are emphasizing more than ever before the place that mathematics holds in the curriculum. To this end we have increased the time allowance for arithmetic in the junior schools. We are requiring algebra of all high school boys and urging them to elect as much additional mathematics as they are capable of assimilating.

We have increased the time allowance for general science in the junior schools and are requiring physics of all boys in the high schools. These changes in requirements are consistent with the needs of the armed services.

We have also increased the time allowance in the junior schools for history and geography. We have added a half-year course in world civilization at the ninth grade level and a course in global geography at the high school level.

The course in home management for senior girls which we have offered for a number of years and which has proved most valuable is now required of all girls.

You will be interested to know that we have been cooperating very effectively with the home Nursing Division of the local Red Cross. The course in Home Management for girls includes a unit on family health. Arrangements were made with the Home Nursing Division of the Red Cross for one of their home nursing instructors to meet with the girls in the Home Management classes. This proved very effective. As provided for last year, credit is allowable toward the high school diploma for standard Red Cross courses in First Aid and Home Nursing.

The recent action taken by the School Committee upon the recommendation of the Superintendent makes possible a program of Junior Red Cross activities in the schools.

The various special provisions which have been made for boys entering military service have been timely and are proving effective. A definite effort is being made within the schools to keep the boys informed in regard to related matters and to encourage them to get as much education as possible.

Never was there a more urgent need either for applying every kind of knowledge to the solution of everyday problems or for trying to seek the solution free from prejudice or bias. Never before has a generation been called upon to learn so much, to learn it so well, in so short a time, and for so serious a purpose as now.

Dr. Howard E. Wilson, Professor of Social Studies at Harvard University, and Chairman of the Commission on Wartime Policy of the National Council for the Social Studies, gave an outstanding educational address to the Quincy teachers. It was a clear, concise statement on the principles underlying the teaching of good citizenship, the obligation of the teacher to keep abreast of modern thought, and the extreme importance of snapping out of the lethargy in which we find ourselves.

James R. Young, for thirteen years Director of the International News Service Bureau in the Orient with headquarters in Tokio, delivered a lecture on The Far East in Turmoil. He gave a scorching analysis of the new order in Asia.

In accordance with requirements made by the WPB, \$19,972.87 was paid out for the conversion from oil to coal and for refractory work, pits, etc. in the Quincy High School, in the Quincy School, and the Massachusetts Fields School, and for some necessary refractory work in other buildings. We now have two boilers in the Quincy High School that have been converted from oil to coal. Stokers were installed in the Quincy High School.

It might be of interest for you to know that when the budget was made up for 1943, there were 443 on the teaching staff of whom

84% or 372 received \$1700 or more
70% or 309 received \$1800 or more
63% or 281 received \$1900 or more
49% or 219 received \$2000 or more

When the budget was made up for the year 1944, there were 421 on the teaching staff of whom

85.7% or 361 will receive \$1700 or more
68.1% or 287 will receive \$1800 or more
61.5% or 259 will receive \$1900 or more
50.8% or 213 will receive \$2000 or more

The special compensation paid by the City of Quincy is not included in this amount.

The school is the first line of defense for democracy. You, the School Committee, are the trustees of the school system of Quincy and for the children of this city.

The schools are strengthened or weakened in proportion to your permitting meddlers to interfere with the job the citizens of Quincy have entrusted to you, in proportion to your views or lack of views on school problems, in proportion to your adherence or lack of adherence to every political wind that blows.

Parents are not fully aware of the seriousness of the constant meddling in the work of the schools, which interferes with their children's progress. It is an endless chain.

One cannot make clear-cut decisions which stand the test on biased premises. If the premises are biased, the conclusion must of necessity be biased. What one needs and should have are plain, accurate facts, unbiased opinions and judgments, in order to arrive at sound conclusions. These I have endeavored always to get and in turn to give to the School Committee.

No one can gainsay that the heaviest burdens of the war are carried by the youth. They are fighting our battles. I am asking you to provide adequately and effectively for their younger brothers and sisters who are coming along. Do not let them down.

Our political philosophy must change. It must change or our free institutions must perish. There is surely a sorry contrast between the death abroad and the greed for political prestige at home. Men otherwise honest and courageous are willing to sell their souls for a mess of pottage of political preference.

A unified school system is essential if the educational needs of the children are to be effectively served. For seventeen years every effort has been made to build such a system as opposed to a collection of individual units. The schools are maintained to serve the children, not to provide employment. This premise with its ramifications was officially approved and adopted by the School Committee a few years ago. I caution you against disintegration of the school

system. Unless there is strong and able leadership, each person is a law unto himself and does as he pleases. This means disintegration.

Unless individuals are willing to recognize that certain obligations are imposed upon them as members of a group interested in the common good there can be no orderly existence, no security or rights for anyone, least of all for the children whom we are here to serve. A common obligation rests upon all to serve not only the children but also the public welfare. Society cannot exist on any other basis.

Respectfully submitted,

JAMES N. MUIR,
Superintendent of Schools.

MR. JAMES N. MUIR, *Superintendent of Schools,*
Quincy, Massachusetts.

My dear Mr. Muir:

I submit the following report on the Day Trade School for the year 1942-43.

In my last year's report I mentioned the fact that a large number of boys had left school to accept employment or to enter the armed forces. The same condition exists this year and no doubt will continue while the period of the emergency exists.

A total of 80 boys have left school for reasons listed below:

Number left to enter armed service	10
Number left to accept employment	29
Number of above employed by Bethlehem Steel Corporat'n	19
Number left for other reasons	41

Since September, 1943, 78 boys have been accepted to fill vacancies because of this "turnover."

As was the case last year we have accepted all ninth grade applicants as well as some seventh and eighth graders. I believe that parents should encourage their sons to complete the ninth grade, because we find that boys who have not progressed that far in school are deficient in the fundamentals necessary for good school work. I am opposed to lowering our standards and we have not done so.

The following table shows the number of Trade School tuition students over a five-year period:

	First Year	Second Year	Third Year	Total
December, 1939	7	12	20	39
December, 1940	5	4	7	16
December, 1941	2	1	3	6
December, 1942	29	1	2	32
December, 1943	22	6	2	30

Following is a financial statement of the Trade School the last two years:

	1941-42	1942-43
Tuition for non-residents	\$1,252.88	\$3,044.30
Cash for products made in the school	320.55	268.35
Aid from the Federal Government	5,732.71	4,814.94
Aid from the State of Massachusetts	*23,232.45	*22,342.35
Miscellaneous receipts	63.06	307.70
	<hr/>	<hr/>
Total Receipts	\$30,601.65	\$30,777.64
Net Cost to City of Quincy	\$25,301.74	\$26,718.54

* These figures are from September 1 to August 31 to conform to the time of disbursement of State and Federal Funds.

There have been changes in the Trade School personnel. Mr. Maurice J. Daly, shop instructor of Auto Mechanics, joined the staff of the Department of Education, Vocational Division, in January. Mr. Forest L. Mason, class instructor of Auto Mechanics, has since had charge of both shop and class, alternating weekly. Mr. John E. Lundsgaard, Machine Shop instructor, also secured a leave of absence to join the Marine Corps. His place was filled by Mr. Thomas P. Walsh.

The appearance of the interior of the school has been greatly improved by the application of paint to the classrooms and corridors. It is hoped that the shops may be painted as well during the summer vacation.

The windows have all been painted, re-puttied, and the frames have been straightened. This has saved heat as well as improving the appearance of the exterior.

Through the efforts of the Superintendent of Schools the Trade School was assigned three additional classrooms in the Coddington School. This allows more floor space for shop work in our own building. We hope that some time in the future we may have the use of the two remaining rooms on the second floor as well as the much-needed auditorium on the top floor. In that case all our classrooms would be situated in the Coddington School and the Trade School would be devoted to shop work.

The Trade School recognizes the need for changes due to the war and to the coming problems of rehabilitation. We are stressing Mathematics more and are devoting considerable time to pre-induction training.

Where possible, the school has contributed directly to the war effort. In the Pattern Making Department the boys have constructed 280 planes to be used for Army and Navy flight training, as well as patterns for Submarine Signal Company. In the Machine Department considerable work has been done for local concerns directly engaged in war work.

Respectfully submitted,

FRANK C. WEBSTER,
Director.

Wednesday noon (12:00) and remainder of week; Good Friday,
April 7; Memorial Day, Tuesday, May 30.

Fall Term—Schools to open Wednesday, September 6, 1944.

QUINCY WAR PRICE AND RATIONING BOARD NO. 30 ANNUAL REPORT FOR 1943

January 1, 1944

The secretary wishes to submit a report of progress during the year 1943. Many changes have taken place in the organization and in the office itself during the past year. Much new equipment has been obtained and new personnel added.

During the year, the office quarters were enlarged and rearranged. A rest room for the girls was constructed, an enclosure was built at the entrance, a burglar alarm was installed, and, to insure additional safety, arrangements were made to store the bulk of the coupons at the Norfolk County Trust Company at an annual rental of \$100 a year. Additional telephone service has been installed and a bell system, with signals for each department, supplements the telephone system.

Office supplies obtained from the State have included: 8 desks, 1 swivel chair, 5 typewriters, 16 file cabinets, 2 typewriter tables and 8 desk lamps. The bulk of our office supplies such as envelopes, blotters, paper, typewriter ribbons, pencils, pens, erasers, etc., formerly supplied by the city, have been furnished during the past year by the State.

To improve the lighting in the office, 20 desk lamps were purchased. Of the \$4,700.00 allocated by the Defense Council for the Rationing Board expenses, \$2,811.75 was expended, leaving a balance of \$1,888.25, which was returned. An itemized account of expenditures is attached.

Relative to our Board membership, Mr. Albert L. Lash was appointed chairman to succeed Mr. Perley E. Barbour who resigned. Nine new members were added to the Board. These are:

Loy J. Bowen	Elmer Wordell
Wilfred R. Rhodes	Floyd A. Hayward
Herbert C. Claridge	U. Russell Paakonon
John P. Flavin	Paul M. LeComte
Amelio A. Della Chiesa (resigned)	

Eleven new clerks were added to the staff, bringing the number to 24. Miss Deary was appointed to take charge of the gasoline department upon the resignation of Mrs. Smollett. Mrs. Doyle was appointed head of the food division; Miss Santeusano, fuel oil head; and Miss Ungar, in charge of shoes, rubber boots and bicycles.

In general, office procedures have been revised in order to promote efficiency and dispatch. A new accounting and receipt system has made a complete check of coupons possible.

The Mayor, in his annual address, paid tribute to the Rationing Board for the excellent service to the city.

The Secretary wishes to express appreciation to the Board members and Staff for the cooperation they have given, all of which has resulted in a most successful year.

Signed,

ALEXANDER PURDON
Administrative Secretary.
